

ITERATES OF PIECEWISE MONOTONE MAPPINGS ON AN INTERVAL - CONTENTS

Section 1	Introduction	1
Section 2	Piecewise monotone mappings	20
Section 3	Proof of Theorems 2.4 and 2.5	34
Section 4	Sinks and homtervals	41
Section 5	Examples of register-shifts	50
Section 6	A proof of Parry's theorem (Theorem 2.6)	57
Section 7	Reductions	68
Section 8	The structure of the set $D(f)$	82
Section 9	Countable closed invariant sets	103
Section 10	Extensions	112
Section 11	Refinements	126
Section 12	Mappings with one turning point	135
Section 13	Some miscellaneous results from real analysis	153
References	160
Index	163
