

- xi** Preface

- 1** Chapter 1 Pointwise Control for Distributed Systems
J. L. Lions

- 41** Chapter 2 On Issues Related to Stabilization of Large Flexible Structures
M. C. Delfour and M. P. Polis

- 85** Chapter 3 A Comparison of Three Approximation Schemes for Optimal Control of a Flexible Structure
J. S. Gibson and A. Adamian

- 125** Chapter 4 On Mathematical Models for the Elastic Beam with Frequency-Proportional Damping
David L. Russell

- 171** Chapter 5 A Synthesis of Time and Frequency Domain Methods for the Control of Infinite-Dimensional Systems: A System Theoretic Approach
Ruth F. Curtain

- 225** Index
