

Contents

0. Introduction: Finite-Dimensional Linear Control Systems and an Outline of Infinite-Dimensional Linear Control Problems	1
0.1. The Problems of Null-Controllability and Null-Reachability	1
0.2. On the Solvability of the Finite Moment Problem which Contains the Problems of Null-Controllability and Null-Reachability	3
0.3. On Norm-Bounded Null-Controllability and Null-Reachability	6
0.4. On Time-Minimal Null-Controllability and Null-Reachability	11
0.5. An Outline of Infinite-Dimensional Linear Control Problems	17
References	25
1. Optimal Damping of Vibrations	26
1.1. One-Dimensional Vibrating Media	26
1.1.1. The Problem of Distributed Control	26
1.1.2. An Elementary Case (Part 1)	33
1.1.3. The Problem of Boundary Control	38
1.1.4. An Elementary Case (Part 2)	42
1.2. On Moment Problems in Hilbert Spaces	50
1.2.1. Problems in General Hilbert Spaces	50
1.2.2. Trigonometric Moment Problems	58
1.2.3. Applications to One-Dimensional Vibrations	72
1.2.3.1. Distributed Control	72
1.2.3.2. Boundary Control	73
1.2.3.3. Special Cases	74
1.2.4. Bibliographical Remarks and References	78
1.3. On the Solvability of Linear Operator Equations ...	82
1.3.1. Exact Solvability	82

1.3.2. Approximate Solvability	86
1.3.3. Application to Nuclear Operators and Moment Problems in Hilbert Spaces	87
1.4. Application to One-Dimensional Vibrations	92
1.4.1. Distributed Control	92
1.4.2. Boundary Control	98
1.5. On Time-Minimal Control of Linear Systems	100
1.5.1. Existence of Time-Minimal Controls	100
1.5.2. A General Maximum-Principle for Minimum Norm Controls	102
1.5.3. Reduction of Time-Minimal Controllability to Norm-Minimal Controllability	106
1.5.4. Application to One-Dimensional Vibrations	110
1.5.4.1. Distributed Control	110
1.5.4.2. Boundary Control	114
1.6. Bibliographical Remarks and References	115
2. Optimal Control of Heating Processes	117
2.1. Problems in One Space Dimension	117
2.1.1. Distributed Control	117
2.1.2. Boundary Control	121
2.2. On Moment Problems in Banach Spaces	124
2.2.1. Problems in General Banach Spaces	124
2.2.2. Connection with Equations for Nuclear Operators ...	128
2.2.3. On Solving Finite Moment Problems	131
2.3. Equations for Nuclear Operators in Banach Spaces	133
2.3.1. Exact Solvability	133
2.3.2. Approximate Solvability	136
2.4. On Exponential Moment Problems	138
2.4.1. Exponential Sums and Series	138
2.4.2. Solvability	144
2.4.3. On Least Norm Solutions	152

2.4.4. On Time-Minimal Solutions	159
2.4.4.1. Reduction to Least Norm Solutions	159
2.4.4.2. A Direct Approach	163
2.5. Bibliographical Remarks and References	165
