

TABLE OF CONTENTS

| | |
|---|-----|
| FOREWORD TO THE RUSSIAN EDITION | v |
| FOREWORD TO THE AMERICAN EDITION | xvi |
| INTRODUCTION. ELEMENTS OF FUNCTIONAL ANALYSIS AND CONVEX SETS | 1 |
| 1. Some Basic Concepts of Functional Analysis | 1 |
| 2. Convex Sets | 22 |
| 3. Convex Functionals | 35 |
| CHAPTER I. PROPERTIES OF CONVEX FUNCTIONALS | 39 |
| CHAPTER II. CONVEX PROGRAMMING IN BANACH SPACES | 54 |
| CHAPTER III. QUASI-DIFFERENTIABLE FUNCTIONALS | 68 |
| CHAPTER IV. NECESSARY CONDITIONS FOR AN EXTREMUM IN GENERAL MATHEMATICAL PROGRAMMING PROBLEMS | 82 |
| CHAPTER V. NECESSARY CONDITIONS FOR AN EXTREMUM IN CONCRETE PROBLEMS | 120 |
| 1. The Classical Mathematical Programming Problem | 121 |
| 2. Mathematical Programming with a Continuum of Constraints | 122 |
| 3. Theorems for Minimax Problems | 126 |
| 4. Chebyshev Approximation Problems | 130 |
| 5. A Linear Optimal Control Problem with Phase Constraints | 142 |
| 6. A Duality Principle in Convex Programming | 150 |

Table of Contents

| | |
|--|-----|
| 7. Systems of Convex Inequalities, Helly's Theorem | 157 |
| 8. The Moment Problem | 166 |
| 9. A Discrete Maximum Principle | 185 |
| SHORT BIBLIOGRAPHY | 201 |
| LITERATURE | 210 |
| NOTES AND SUPPLEMENTARY BIBLIOGRAPHY TO AMERICAN EDITION | 217 |
| SUPPLEMENTARY LITERATURE | 223 |
| SUBJECT INDEX | 226 |
