

# C o n t e n t s

Introduction	1
1. Preliminaries	5
1.1 Notations	5
1.2 Some results from boundary theory	6
1.3 Harmonic spaces. Examples	8
2. A maximal property of harmonic spaces	10
3. Completion of $\mathcal{L}$ -presheaves	17
4. Existence of resolute and regular sets	34
4.1 Resolute sets	34
4.2 Regular sets	39
5. The axiom of convergence	43
References	51
Symbols	53
