|  |            |
|--|------------|
| <b>Introduction</b>  | <b>vii</b> |
| <b>I Generalized Characteristics of First-Order PDE's</b>  | <b>1</b>   |
| 1 The Classical Method of Characteristics . . . . .  | 1          |
| 2 Characteristic Inclusions . . . . .  | 8          |
| 3 Upper and Lower Semicontinuous Solutions . . . . .   | 15         |
| 4 Criteria of Weak Invariance for Minimax Solutions . . . . .  | 24         |
| 5 Piecewise Smooth Solutions . . . . .   | 41         |
| <b>II Cauchy Problems for Hamilton–Jacobi Equations</b>  | <b>55</b>  |
| 6 Minimax Solutions of Hamilton–Jacobi Equations . . . . .   | 55         |
| 7 Uniqueness of Minimax Solution of Cauchy Problem for<br>Hamilton–Jacobi Equation . . . . .                         | 62         |
| 8 Existence of Minimax Solution of Cauchy Problem for<br>Hamilton–Jacobi Equation . . . . .                          | 69         |
| 9 Uniqueness under Weakened Assumptions . . . . .  | 85         |
| 10 Constructive and Numerical Methods . . . . .  | 96         |
| <b>III Differential Games</b>  | <b>115</b> |
| 11 Basic Notions of the Theory of Differential Games . . . . .   | 115        |
| 12 Proof of Existence of Value Function of Differential Game . . . . .   | 125        |
| 13 Stable Bridges and Extremal Strategies . . . . .  | 134        |
| 14 Some Remarks . . . . .  | 147        |
| 15 Mixed Feedback Strategies and Counter-Strategies . . . . .  | 162        |
| 16 Constructive and Numerical Methods of the Theory of<br>Differential Games . . . . .                               | 276        |
| <b>IV Boundary-Value Problems for First-Order PDE's</b>  | <b>201</b> |
| 17 Cauchy Problems for Hamilton–Jacobi Equations with<br>Additional Conditions in the Form of Inequalities . . . . . | 201        |

|                     |  |            |
|---------------------|--|------------|
| 18                  | Discontinuous Solutions of Dirichlet-Type<br>Boundary-Value Problem . . . . .                  | 219        |
| 19                  | Time-Optimal Differential Games . . . . .  | 237        |
| 20                  | Piecewise-Linear Approximations to Minimax Solutions of<br>Hamilton–Jacobi Equations . . . . . | 251        |
| <b>Appendix</b>     |  | <b>263</b> |
| A1                  | Justification of the Classical Method of Characteristics . . .                                 | 263        |
| A2                  | Multifunctions . . . . .   | 266        |
| A3                  | Semicontinuous Functions . . . . .   | 268        |
| A4                  | Convex Functions . . . . .   | 269        |
| A5                  | Contingent Tangent Cones, Directional Derivatives,<br>Subdifferentials . . . . .               | 270        |
| A6                  | On a Property of Subdifferentials . . . . .  | 276        |
| A7                  | Differential Inclusions . . . . .  | 279        |
| A8                  | Criteria for Weak Invariance . . . . .   | 283        |
| <b>Bibliography</b> |  | <b>291</b> |
| <b>Index</b>        |  | <b>311</b> |
