## **PART I Introduction** **1**

---

<b>1 The World Economy</b>	<b>3</b>
Objectives/key terms	3
1.1 Introduction	4
1.2 Land area and population	5
1.3 Income	8
1.4 Income per capita	11
1.5 International trade	12
1.6 Globalization	17
1.7 Trade connections in the world economy	20
1.8 Conclusions	22
Questions	22
Notes	24
<b>2 The Balance of Payments</b>	<b>25</b>
Objectives/key terms	25
2.1 Introduction	26
2.2 The balance of payments	26
2.3 Capital flows	28
2.4 Nations and firms: a classic mistake	30
2.5 The benefits of international capital flows	34
2.6 Services	39
2.7 Conclusions	41
Questions	41
Notes	43

---

<b>PART II International Trade</b>	<b>45</b>
<b>II.A. COMPARATIVE ADVANTAGE</b>	<b>47</b>
<b>3 Classical Trade: Technology</b>	<b>48</b>
Objectives/key terms	48
3.1 Historical introduction	49
3.2 Smith's argument for free trade	50
3.3 Ricardo's contribution	51
3.4 Technology as a basis for comparative advantage	52
3.5 Production possibility frontier and autarky	55
3.6 Terms of trade and gains from trade	57
3.7 Application: Kenya and the EU	60
3.8 More countries and world PPF	62
3.9 Measuring trade advantages: the Balassa index	64
3.10 Conclusions	67
Questions	68
Notes	69
<b>4 Production Structure</b>	<b>71</b>
Objectives/key terms	71
4.1 Introduction	72
4.2 Neoclassical economics	72
4.3 General structure of the neoclassical model	74
4.4 Production functions	75
4.5 Cost minimization	79
4.6 Impact of wage rate and rental rate	82
4.7 Constant returns to scale	83
4.8 Conclusions	88
Technical Notes	88
Questions	90
Notes	91
<b>5 Factor Prices</b>	<b>92</b>
Objectives/key terms	92
5.1 Introduction	93
5.2 Factor price equalization	94
5.3 The Lerner diagram	94
5.4 From factor prices to final goods prices	97
5.5 From final goods prices to factor prices	98
5.6 Stolper–Samuelson	99
5.7 Graphical analysis	101
5.8 The magnification effect	102
5.9 Application: globalization, low wages, and unemployment	105
5.10 Conclusions	108

Technical Notes	108
Questions	110
Notes	111
<b>6 Production Volume</b>	<b>112</b>
Objectives/key terms	<b>112</b>
6.1 Introduction	113
6.2 Rybczynski	113
6.3 The Edgeworth Box	114
6.4 The contract curve	117
6.5 The distribution of labour and capital	120
6.6 Application: Russian immigrants in Israel	124
6.7 Conclusions	125
Technical Notes	126
Questions	126
Note	128
<b>7 Factor Abundance</b>	<b>129</b>
Objectives/key terms	129
7.1 Introduction	130
7.2 Heckscher–Ohlin	131
7.3 Demand	132
7.4 The production possibility frontier	135
7.5 Structure of the equilibrium	139
7.6 Autarky equilibrium	140
7.7 International trade equilibrium	143
7.8 Application: the Summers–Heston data	148
7.9 The case of the missing trade	150
7.10 Conclusions	151
Technical Notes	152
Questions	153
Notes	154
<b>8 Trade Policy</b>	<b>155</b>
Objectives/key terms	155
8.1 Introduction	156
8.2 Tariffs, quotas, and other trade restrictions	157
8.3 Tariffs and partial equilibrium	159
8.4 Tariffs and general equilibrium	163
8.5 General equilibrium with offer curves	167
8.6 The 'optimal' tariff?	168
8.7 Optimal tariffs and retaliation	172
8.8 Tariffs in the USA	175
8.9 Conclusions	176

Technical Note	176
Questions	176
Notes	178
<b>II.B. COMPETITIVE ADVANTAGE</b>	<b>179</b>
<b>9 Imperfect Competition</b>	<b>180</b>
Objectives/key terms	180
9.1 Introduction	181
9.2 Monopoly	182
9.3 Monopoly in general equilibrium: autarky	184
9.4 Oligopoly	186
9.5 The pro-competitive effect of international trade	189
9.6 ‘Reciprocal dumping’	190
9.7 Application: the Twaron takeover	192
9.8 Conclusions	197
Technical Notes	197
Questions	198
Notes	200
<b>10 Intra-industry Trade</b>	<b>201</b>
Objectives/key terms	201
10.1 Introduction	202
10.2 Measuring intra-industry trade	204
10.3 Dixit–Stiglitz demand	207
10.4 Demand effects; income, price elasticity $\epsilon$ , and the price index $P$	208
10.5 Increasing returns to scale	212
10.6 Optimal pricing and zero profits	213
10.7 Explaining intra-industry trade	215
10.8 An alternative interpretation: intermediate goods	217
10.9 Conclusions	219
Technical Notes	219
Questions	221
Notes	222
<b>11 Strategic Trade Policy</b>	<b>223</b>
Objectives/key terms	223
11.1 Introduction	224
11.2 Market power and tariffs	225
11.3 The non-equivalence of tariffs and quotas	227
11.4 Strategic trade policy	228
11.5 The nature of competition	230
11.6 Evaluation of strategic trade policy	232

11.7 Application: the aircraft industry	233
11.8 Conclusions	235
Technical Notes	235
Questions	237
Notes	239
<b>12 International Trade Organizations</b>	<b>240</b>
Objectives/key terms	240
12.1 Introduction	241
12.2 The World Trade Organization (WTO/GATT)	242
12.3 The United Nations (UN) and UNCTAD	248
12.4 Organization for Economic Cooperation and Development (OECD)	251
12.5 Case study: economic transition in Central and Eastern Europe	253
12.6 Conclusions	257
Technical Notes	258
Questions	264
Notes	265
<b>13 Economic Integration</b>	<b>266</b>
Objectives/key terms	266
13.1 Introduction	267
13.2 Types of regional economic integration	268
13.3 Neoclassical theory of economic integration	269
13.4 Regional trade agreements	272
13.5 Regionalism and the new trade theory	276
13.6 Europe and the European Union (EU)	279
13.7 Recent enlargement of the European Union	281
13.8 Conclusions	287
Technical Note	288
Questions	289
Notes	290
<b>II.C. TRADE INTERACTIONS</b>	<b>291</b>
<b>14 Geographical Economics</b>	<b>292</b>
Objectives/key terms	292
14.1 Introduction	293
14.2 Zipf's Law and the gravity equation	294
14.3 The structure of the model	296
14.4 Multiple locations and equilibrium	300
14.5 Computer simulations: getting started	304
14.6 Welfare	310
14.7 Application: predicting the location of European cities	311

14.8 Conclusions	314
Technical Notes	314
Questions	315
Notes	317
<b>15 Multinationals</b>	<b>318</b>
Objectives/key terms	318
15.1 Introduction	319
15.2 The size and structure of multinationals	321
15.3 Foreign direct investment	324
15.4 Explaining multinationals	327
15.5 Multinationals in general equilibrium	329
15.6 Characterization of equilibrium	333
15.7 Case study: hard disk drives	337
15.8 Conclusions	339
Questions	340
Notes	341
<b>16 New Goods and Development</b>	<b>342</b>
Objectives/key terms	342
16.1 Introduction	343
16.2 Modelling new goods	345
16.3 Kaldor's stylized facts of economic growth	348
16.4 The neoclassical model and the Solow residual	350
16.5 Empirical pictures	352
16.6 Endogenous growth	356
16.7 An experiment in geographical economics	359
16.8 Conclusions	365
Technical Notes	366
Questions	366
Notes	368
<b>17 Applied Trade Policy Modelling</b>	<b>369</b>
Objectives/key terms	369
17.1 Introduction	370
17.2 Demand	371
17.3 Partial equilibrium models	373
17.4 General equilibrium models	376
17.5 Measuring what is not there: the Dupuit triangle	379
17.6 More on the dynamic costs of trade restrictions	380
17.7 China, a case study	383
17.8 Conclusions	385
Questions	386
Notes	388

<b>PART III International Money</b>	<b>389</b>
<b>III.A. MONEY BASICS</b>	<b>391</b>
<b>18 The Money Market</b>	<b>392</b>
Objectives/key terms	392
18.1 Introduction	393
18.2 The functions of money	393
18.3 Different types of money	394
18.4 The money market	396
18.5 The demand for money	397
18.6 The money supply process	400
18.7 Monetary equilibrium	404
18.8 Conclusions	407
Questions	407
Notes	408
<b>19 Foreign Exchange Markets</b>	<b>409</b>
Objectives/key terms	409
19.1 Introduction	410
19.2 Spot exchange rates	410
19.3 Players and markets	414
19.4 Forward-looking markets	416
19.5 Effective exchange rates	418
19.6 Trading volume	420
19.7 Conclusions	422
Technical Note	423
Questions	424
Notes	425
<b>20 Purchasing Power Parity</b>	<b>426</b>
Objectives/key terms	426
20.1 Introduction	427
20.2 The Law of One Price and purchasing power parity	427
20.3 Prices and exchange rates	429
20.4 Real effective exchange rates	433
20.5 Causes of deviations from PPP	438
20.6 Testing for PPP	440
20.7 Structural deviations: PPP corrections	441
20.8 Conclusions	444
Questions	444
Notes	445

<b>21 Interest Rate Parity</b>	<b>446</b>
Objectives/key terms	446
21.1 Introduction	447
21.2 Interest rates	447
21.3 Covered interest parity	450
21.4 The empirics of covered interest parity	453
21.5 Uncovered interest parity	457
21.6 Risk premium and transaction costs	458
21.7 The empirics of uncovered interest parity	460
21.8 Conclusions	463
Technical Note	464
Questions	464
Notes	465
<b>22 Money Organizations and Institutions</b>	<b>466</b>
Objectives/key terms	466
22.1 Introduction	467
22.2 Exchange rate regimes and the policy trilemma	467
22.3 Gold Standard ( $\pm$ 1870–1914)	470
22.4 World wars and recession (1914–45)	470
22.5 Bretton Woods (1945–71)	472
22.6 Floating rates (1971–now)	474
22.7 International Monetary Fund (IMF)	476
22.8 World Bank	479
22.9 Bank for International Settlements (BIS)	481
22.10 Conclusions	482
Questions	482
Notes	483
<b>III.B. EXCHANGE RATES</b>	<b>485</b>
<b>23 Elasticities and Absorption</b>	<b>486</b>
Objectives/key terms	486
23.1 Introduction	487
23.2 Elasticities and the Marshall–Lerner condition	487
23.3 Elasticities and time: the J-curve	491
23.4 Application: Plaza, Louvre, and the J-curve	493
23.5 Absorption approach	494
23.6 Adjustment problems	497
23.7 Conclusions	501
Technical Note	501
Questions	501
Notes	503

<b>24 The Monetary Approach</b>	<b>504</b>
Objectives/key terms	504
24.1 Introduction	505
24.2 Money, price flexibility, and the modelling of exchange rates	505
24.3 The monetary model and the price specie flow mechanism	509
24.4 Flexible price monetary approach (floating exchange rates)	512
24.5 Money, income, and exchange rates	514
24.6 Conclusions	517
Technical Notes	517
Questions	518
Notes	519
<b>25 Short-run Economic Policy</b>	<b>520</b>
Objectives/key terms	520
25.1 Introduction	521
25.2 Fixed exchange rates (small country, perfect capital mobility)	522
25.3 Fixed exchange rates and large countries (perfect capital mobility)	525
25.4 Imperfect substitutability (small country, fixed exchange rates)	526
25.5 Flexible exchange rates (small country, perfect capital mobility)	529
25.6 Flexible exchange rates, large countries, and imperfect substitutability	532
25.7 Conclusions	535
Technical Notes	536
Questions	537
Notes	538
<b>26 Expectations and Sticky Prices</b>	<b>539</b>
Objectives/key terms	539
26.1 Introduction	540
26.2 Rational expectations and financial equilibrium	541
26.3 Price stickiness and the phase diagram	543
26.4 Equilibrium dynamics	544
26.5 Exchange rate overshooting	546
26.6 Expectations formation	549
26.7 Fundamentals and bubbles	552
26.8 Empirical evidence	554
26.9 Conclusion	556
Technical Notes	557
Questions	558
Notes	559

<b>III.C. POLICY AND CREDIBILITY</b>	<b>561</b>
<b>27 Objectives, Targets, and Instruments</b>	<b>562</b>
Objectives/key terms	562
27.1 Introduction	563
27.2 Objectives: welfare and the loss function	564
27.3 From instruments to targets	565
27.4 From targets to objectives: expectations and the Phillips curve	568
27.5 The Barro–Gordon model	571
27.6 The Taylor rule	575
27.7 Conclusions	576
Technical Notes	577
Questions	578
Notes	580
<b>28 Fixed Exchange Rates and Target Zones</b>	<b>581</b>
Objectives/key terms	581
28.1 Introduction	582
28.2 Exchange rate regimes	582
28.3 Fixed exchange rates	583
28.4 Credibility of fixed exchange rate regimes I: preferences	586
28.5 Credibility of fixed exchange rate regimes II: shocks	588
28.6 The basic target zone model	591
28.7 Target zone extensions and empirical tests	594
28.8 Conclusions	597
Technical Note	597
Questions	598
Notes	600
<b>29 Financial Crises</b>	<b>601</b>
Objectives/key terms	601
29.1 Introduction	602
29.2 What is a currency crisis?	602
29.3 Characteristics of currency crises	604
29.4 First-generation models	605
29.5 Second-generation models	607
29.6 Frequency and measurement	609
29.7 The costs of financial crises and sequencing	612
29.8 Synthesis: third-generation model	613
29.9 Conclusions	615
Questions	615
Notes	616

<b>30 European Monetary Union (EMU)</b>	<b>617</b>
Objectives/key terms	617
30.1 Introduction	618
30.2 Optimal currency areas	618
30.3 Benefits of a common currency	621
30.4 The Maastricht Treaty	625
30.5 The Eurosystem	628
30.6 Monetary policy	630
30.7 Extending the euro area	632
30.8 Conclusions	634
Technical Note	635
Questions	636
Note	636
<b>31 New Open Economy Macroeconomics</b>	<b>637</b>
Objectives/key terms	637
31.1 Introduction	638
31.2 Exchange rates, terms of trade, and competition	639
31.3 Model structure and demand	640
31.4 Wage setting and prices	644
31.5 Equilibrium	647
31.6 Monetary policy rules and exchange rate regimes	647
31.7 Conclusions	649
Technical Note	650
Questions	651
Notes	652
<hr/>	
<b>PART IV Conclusion</b>	<b>653</b>
<hr/>	
<b>32 Concluding Remarks</b>	<b>655</b>
32.1 Introduction	656
32.2 International trade	656
32.3 Gains from trade	657
32.4 Trade policy	658
32.5 Applications	659
32.6 International money	660
32.7 Exchange rates	662
32.8 Policy framework	662
32.9 Economic policy	663
32.10 Conclusion	665
REFERENCES	667
INDEX	681
