## Part I   General Perspectives

1. Old Age as a Stage of Life: Common Terms Related to Aging and Methods Used to Study Aging   3  
*Paola S. Timiras*
2. Human Longevity in Historical Perspective   11  
*John R. Wilmoth*
3. Comparative Aging, Geriatric Functional Assessment, Aging and Disease   23  
*Paola S. Timiras*
4. Cellular Senescence, Cell Death, and Transgenic Mouse Models of Aging   41  
*Judith Campisi*
5. Theories of Life Span and Aging   55  
*James R. Carey and Sigé Zou*

## Part II   Systemic and Organismic Aging

6. The Nervous System: Structural, Biochemical, Metabolic, and Circulatory Changes   71  
*Paola S. Timiras and Gabe J. Maletta*
7. The Nervous System: Functional Changes with Aging   89  
*Paola S. Timiras and Gabe J. Maletta*
8. Sensory Systems: Normal Aging, Disorders, and Treatments of Vision and Hearing in Humans   109  
*Esmail Meisami, Chester M. Brown, and Henry F. Emerle*
9. The Adrenals and Pituitary—Stress, Adaptation, and Longevity   137  
*Paola S. Timiras and Omer Gersten*
10. Female Reproductive Aging and Menopause   159  
*Francis Bellino*
11. The Ensemble Male Hypothalamo-Pituitary-Gonadal Axis   185  
*Johannes D. Veldhuis, Daniel M. Keenan, Ali Iranmanesh, Paul Y. Takahashi, and Ajay Nehra*
12. The Thyroid, Parathyroid, and Pineal Glands   205  
*Paola S. Timiras*
13. The Endocrine Pancreas, Obesity, and Diffuse Endocrine and Chemical Mediators   219  
*Paola S. Timiras*
14. The Immune System   231  
*Lia Ginaldi and Hal Sternberg*
15. Cardiovascular Alterations with Aging: Atherosclerosis and Coronary Heart Disease   249  
*Paola S. Timiras*
16. Lipids, Lipoproteins, and Atherosclerosis   265  
*John K. Bielicki and Trudy M. Forte*

17.	The Pulmonary Respiration, Hematopoiesis, and Erythrocytes	277
	<i>Paola S. Timiras and Massimo De Martinis</i>	
18.	The Kidney, Lower Urinary Tract, Body Fluids, and the Prostate	297
	<i>Mary L. Timiras and Joyce Leary</i>	
19.	The Gastrointestinal Tract and the Liver	315
	<i>Paola S. Timiras</i>	
20.	The Skeleton, Joints, and Skeletal and Cardiac Muscles	329
	<i>Paola S. Timiras and Franco M. Navazio</i>	
21.	The Skin	345
	<i>Mary L. Timiras</i>	
<b>Part III Prevention and Rehabilitation</b>		
22.	Pharmacology and Drug Management in the Elderly	355
	<i>Mary L. Timiras and Jay S. Luxenberg</i>	
23.	Healthful Aging: Nutrition and Experimental Strategies in Dietary Restriction	363
	<i>Franco M. Navazio and Marlia M. Braun</i>	
24.	Benefits of Physical Exercise	381
	<i>Franco M. Navazio and Massimo Testa</i>	
25.	Regenerative Perspectives and Assistive Technologies	393
	<i>Mike D. West, Ruzena Bajcsy, and Paola S. Timiras</i>	
	<i>Index</i>	399
