

## Table of Contents

Preface	vii
Chapter 1. Background Material	1
1.1. Simplicial Homology	1
1.2. Complex Algebraic Varieties	6
1.3. Compact Riemann Surfaces	15
1.4. The Brill-Noether Theorem	30
Chapter 2. Minimal Surfaces: General Theory	55
2.1. Intrinsic Surface Theory	56
2.2. The Method of Moving Frames	62
2.3. The Gauss Map and the Weierstrass Representation	69
2.4. The Chern-Osserman Theorem	81
2.5. Examples	91
2.6. Bernstein Type Theorems	104
2.7. Stability of Complete Minimal Surfaces	112
Chapter 3. Minimal Surfaces with Finite Total Curvature	119
3.1. The Puncture Number Problem	121
3.2. Moduli Space of Algebraic Minimal Surfaces	131
Bibliography	143
Index	155
