

TABLE OF CONTENTS

Preface	v
Chapter 1: THE MAXIMAL IDEAL SPACE OF $M(G)$	
1. Introduction	1
2. The operator algebra $M(G)^*$	2
3. The structure semigroup	5
4. Generalized characters	9
5. Historical notes	11
Chapter 2: THE SHILOV BOUNDARY AND THE SYMMETRIC MAXIMAL IDEALS IN $M(G)$	
1. Introduction	13
2. Preparatory results	14
3. Particular cases	20
4. Main theorem	26
5. Historical notes	27
Chapter 3: UNIFORM APPROXIMATION BY FOURIER- STIELTJES TRANSFORMS	
1. Introduction	29
2. B^* -subalgebras of $M(G)$	30
3. Pairings with $M(G)$	31
4. Historical notes	38

Chapter 4: WEAKLY ALMOST PERIODIC FUNCTIONS

1. Introduction	39
2. Basic facts	40
3. Relationship to Fourier-Stieltjes transforms	42
4. Historical notes	46

Chapter 5: SIDON SETS

1. Introduction	47
2. Other equivalences	48
3. An example	51
4. Sufficient conditions	52
5. Uniformly approximable Sidon sets	59
6. Historical notes	62

Chapter 6: IDEMPOTENT MEASURES

1. Introduction	63
2. The Cohen idempotent theorem	64
3. Norms of idempotent measures	67
4. Remarks	70

Chapter 7: INTRODUCTION TO COMPACT GROUPS

1. Introduction	71
2. Theorems on unitary representations	73
3. Harmonic analysis of $L^2(G)$	76
4. Representations on a Banach space	79
5. Historical notes	81

Chapter 8: BANACH SPACES ON THE DUAL OF A COMPACT GROUP

1. Introduction	83
2. Norms on finite dimensional linear operators	83
3. Generalized sequence spaces	86
4. The Fourier transform	89
5. The maximal ideal space of $A(G)$	94
6. Functions that operate in $A(G)$	96
7. Remarks	98

Chapter 9: HOMOGENEOUS SPACES

1. Introduction	99
2. Basic definitions	99
3. Operators that commute with translations	101
4. Spherical functions	103
5. The spaces $A_H(G)$ and $A_{HH}(G)$	106
6. The special orthogonal group and the sphere	107
7. Historical notes	115

Chapter 10: ANALYTIC FUNCTIONS ON THE BALL

1. Introduction	117
2. Analytic functions and the unitary group	117
3. Subharmonic functions	121
4. H^p -theory	124

Appendix A: THE HAAR INTEGRAL	129
--------------------------------------	-----

Appendix B: INTEGRATION ALGEBRAS	139
---	-----

Appendix C: REMARKS ON RECENT WORK	149
---	-----

Bibliography	151
---------------------	-----

Index of special symbols	157
---------------------------------	-----

Author index	159
---------------------	-----

Subject index	161
----------------------	-----
