<i>Foreword</i>	ix
<i>Preface</i>	xi
<i>Acknowledgements</i>	xv
<b>1 Introduction</b>	<b>1</b>
Advanced nursing practice: a growing presence	1
Advanced nursing practice: patterns of development	2
Advanced nursing practice: a global picture	10
Definition of the advanced practice nurse	11
Conclusion	13
References	13
<b>2 Nature of practice</b>	<b>17</b>
Introduction	17
Advanced practice nurse (APN) characteristics	22
ICN official position on APN characteristics	22
Country illustrations	23
Labelling the role	24
Titling	24
Title protection	26
Scope of practice	26
What is scope of practice?	26
What influences scope of practice?	28
Points to consider when defining scope of practice	29
Core competencies	30
Competency: the basis for education and practice	32
Creating a competency map	33
Formulating competency statements	34
Advanced tasks versus advanced roles	35
Controversial practice topics	36
Prescriptive authority	36
The diagnosis debate	39
Hospital privileges	41

Domains of practice	42
Practice settings	45
Conclusion	45
References	45
<b>3 Role and practice development</b>	<b>50</b>
Introduction	50
Striving for the ideal: transitional processes	51
Assessing the opportunity and need for advanced nursing practice	52
Scanning the environment	52
Introducing and supporting advanced nursing practice	56
Interfacing with nurses, physicians, organisations and the public	60
Interface with nursing	60
Interface with medicine	65
Interface with organisational structures	68
Interface with the public	69
Socialisation: role support	71
Strategies to support new APNs	73
Ethical dimensions of the advanced nursing practice role	74
Conclusion	77
References	78
<b>4 Regulation</b>	<b>81</b>
Introduction	81
The regulatory/legislative framework	82
Factors influencing the regulatory/legislative systems	84
Credentialing advanced nursing practice	84
Components of the credentialing framework	86
The credentialee	86
Credentialing mechanisms	88
Credentialer	96
Purpose	96
Powers	97
Standards	97
Processes	98
Term or duration	98
Costs	99
Effectiveness	101
Mutual recognition agreements	101
Model for a regulatory system for advanced nursing practice	102
Exploring your regulatory environment	104
Preparation	104
Forming an overview of the regulatory/legislative systems	104
Understanding regulatory and legal frameworks for advanced nursing practice	105

Advocating for regulatory/legislative change	106
Document analysis	107
Advocacy strategies	107
Conclusion	109
References	109
<b>5 Education for advanced nursing practice</b>	<b>112</b>
Introduction	112
Characteristics of advanced nursing practice education	113
The case for master's level education	114
Debate around master's level education	114
Country variation in education philosophy, approach and development	115
Paths of entry into programmes and length of study	118
Vignettes of advanced nursing practice educational development	118
Assessment of prior experience and bridging mechanisms	120
Curriculum development	121
A curriculum framework to promote flexibility	122
Curriculum: course distribution	124
Advanced practice clinical experience	125
Settings for clinical experience	126
Preceptors and quality of clinical placements	127
Planning for the precepting experience	128
Examples of APN student practicum in new settings	128
Faculty background and preparation	130
Professional development and continuing education	132
Educational standards and programme accreditation	133
Conclusion	133
References	134
<b>6 Research</b>	<b>137</b>
Theoretical perspective of advanced nursing practice	137
Exploring the research perspective	139
Promoting diverse and analytical research	140
Research for advocacy	140
Enhancing knowledge and skills in research	141
The research culture	142
Research competence	142
Writing for publication	143
Searching for research funding	146
International Classification for Nursing Practice® (ICNP):	
A tool for collaborative nursing research	147
An international research agenda for advanced nursing practice	149
Conclusion	152
References	152

<b>7</b>	<b>Future prospects and critical challenges for advanced nursing practice</b>	<b>154</b>
	Introduction	154
	Future prospects	155
	Preparing a health care workforce for the 21st century	155
	Primary health care services	155
	Chronic conditions and home care	156
	Technology and telehealth	157
	Nurse entrepreneurs	158
	Critical challenges	158
	Critical challenge 1: integrating advanced practice nurses into workforce planning	159
	Critical challenge 2: international consensus-building around definitions, scope of practice, core competencies and education	161
	Critical challenge 3: capacity building to strengthen advanced nursing practice in health systems internationally	162
	Critical challenge 4: defining the gaps and finding the evidence	164
	Conclusion	165
	References	166
Appendix 1	Key Informant Survey on Advanced Nursing Practice (ANP) Self-Administered Questionnaire	167
Appendix 2	Scope of practice examples	173
Appendix 3	Strengths, Weaknesses, Opportunities, Threats (SWOT)	177
Appendix 4	Principles to guide standards development	178
Appendix 5	Samples of course descriptions in an advanced nursing practice curriculum	181
Appendix 6	Preceptor guidelines, student and preceptor evaluation forms	189
Appendix 7	Checklist for authors preparing to submit an article for publication	192
