

CONTENTS

	<i>Preface</i>	<i>page ix</i>
1	Introduction	I
2	Explanations of word meaning	11
2.1	<i>Meaning and reference</i>	12
2.2	<i>The image theory of meaning</i>	15
2.3	<i>Meaning and concepts</i>	16
2.3.1	<i>Componential analysis</i>	18
3	Meaning and truth	
3.1	<i>Tarski's truth definition and sentence meaning</i>	23
3.2	<i>Truth conditions and word meaning</i>	28
3.3	<i>Meaning and necessary truth</i>	30
3.4	<i>Truth conditions and logical form</i>	34
3.4.1	<i>Sentence v. statement</i>	36
3.4.2	<i>Logical truth v. analytic truth</i>	37
3.4.3	<i>Truth conditions and entailment</i>	38
3.5	<i>Sentence meaning and the non-declaratives</i>	41
4	Meaning and language use	
4.1	<i>Bloomfield and behaviorism</i>	47
4.2	<i>Speech act semantics</i>	50
5	Speech act semantics v. truth-conditional semantics	
5.1	<i>Speech act semantics and sentence relations</i>	58
5.2	<i>Speech act semantics and non-declaratives</i>	61
5.3	<i>A re-appraisal of the problems</i>	63
5.3.1	<i>Performative utterances and truth-value assignment</i>	64
5.4	<i>A theory of language use: pragmatics</i>	68
5.5	<i>Summary</i>	73

6	The formalisation of word meaning	76
6.1	Word, lexical item <i>and the problem of homonymy</i>	79
6.2	<i>Lexical structure</i>	83
6.2.1	<i>Componential analysis and lexical relations</i>	86
6.2.2	<i>The relation between lexical items and semantic components</i>	87
6.2.3	<i>The formal representation of semantic components</i>	88
6.2.4	<i>Componential analysis: the nature of the evidence</i>	92
6.2.5	<i>Semantic universals?</i>	96
6.3	<i>Summary</i>	101
7	Sentence meaning	
7.1	<i>Deep structure and semantic representations of sentence meaning</i>	106
7.1.1	<i>The definition of deep structure</i>	106
7.1.2	<i>A projection rule for sentence meaning</i>	109
7.2	<i>Selectional restrictions: the problem of anomaly</i>	112
7.3	<i>Negation</i>	117
8	Ambiguity and vagueness	123
8.1	<i>Four types of vagueness</i>	124
8.2	<i>An ambiguity test</i>	128
8.3	<i>Ambiguity and negation</i>	132
8.4	<i>Quantifiers and problems in testing ambiguity</i>	135
9	The logic of natural language	139
9.1	<i>Presupposition and entailment defined</i>	141
9.2	<i>Presupposition and the negation test</i>	145
9.3	<i>Internal negation v. external negation</i>	148
9.3.1	<i>Negation and the ambiguity test revisited</i>	148
9.3.2	<i>The three-valued definition of and</i>	149
9.4	<i>Summary</i>	154
10	Syntax and semantics	
10.1	<i>'Standard' deep structure and semantic representation</i>	159
10.2	<i>Surface structure and semantic representation</i>	161
10.3	<i>Deep structure and semantic representation identified: an ambiguity argument</i>	164
10.4	<i>Phrase structure rules, transformations and semantic representation</i>	165
10.5	<i>Syntax and semantics: the issue reviewed</i>	173
10.6	<i>Summary</i>	181
11	The state of the art and prospects for the future	184

11.1	<i>Linguistic semantics v. logical semantics?</i>	185
11.2	<i>Meaning postulates</i>	188
11.3	<i>Outlook for the future</i>	
11.3.1	<i>Semantics</i>	191
11.3.2	<i>Pragmatics</i>	192
	<i>Bibliography</i>	197
	<i>Index</i>	209
