Preface	3
Introduction	6
Chapter I: Sobolev-type spaces for the weak Dirichlet problem in L^q	24
1 The appropriate Sobolev spaces $\widehat{H}_\bullet^{1,q}(G)$	24
2 Properties of the spaces $\widehat{H}_0^{1,q}(G)$ and $\widehat{H}_\bullet^{1,q}(G)$	27
3 An asymptotic representation for functions harmonic in an exterior domain with L^q -gradients	37
Chapter II: The weak Dirichlet problem for Δ in L^q in bounded and exterior domains	45
1 A variational inequality in $\widehat{H}_\bullet^{1,q}(G)$ and a corresponding functional representation. Introduction	45
2 Local estimates and regularity	49
3 Uniqueness	62
4 Proof of the main theorem (Theorem 1.1)	64
5 L^q -regularity theorems	66
6 Harmonic functions $h \in \widehat{H}_\bullet^{1,q}(G)$ in exterior domains	68
7 Variational inequalities and functional representations in $\widehat{H}_0^{1,q}(G)$ for exterior domains	73
8 Higher derivatives	85
9 Certain strong solutions of the non-homogeneous equation $-\Delta p = f$	94
10 The Dirichlet problem for $\Delta p = 0$ in bounded and exterior domains	98
11 A second look at the non-homogeneous equation. The boundary value at infinity for $1 < q < n$	110
12 Direct determination of the constant $C_q > 0$ in the variational inequality (1.1)	113
Chapter III: Strong solutions of the Dirichlet problem in exterior domains	128
1 Introduction	128
2 Technical preliminaries. The appropriate Sobolev spaces	130
3 The null space of the strong Dirichlet problem in an exterior domain	160
4 Strong L^q -solutions of $-\Delta u = f$ in the whole space \mathbb{R}^n for $1 < q < \infty$	169
5 Strong L^q -solutions of the Dirichlet problem " $-\Delta u = f, u _{\partial G} = 0$ " in an exterior domain	171

Chapter IV: $(2 + k)$-solutions of the Dirichlet problem in exterior domains	177
1 Introduction	177
2 Harmonic polynomials	180
3 The appropriate Sobolev spaces	201
4 An asymptotic representation for functions being harmonic in an exterior domain having higher order derivatives in L^q	235
5 The null space of the Dirichlet problem in $\widehat{H}_D^{2+k,q}(G)$	245
6 $(2 + k)$ -solutions in the whole space \mathbb{R}^n	252
6.1 Polynomial data and solutions	252
6.2 Solutions in the spaces $\widehat{H}^{2+k,q}(\mathbb{R}^n; G_0)$	254
7 $(2 + k)$ -solutions of the Dirichlet problem in exterior domains	262
Appendix	283
List of symbols and notations	287
Bibliography	291
