<b>Unit 10 The Calculus of Residues</b>	
Conventions . . . . .	6
<b>10.0 Introduction</b> . . . . .	7
<b>10.1 Calculating Residues</b> . . . . .	9
<b>10.2 Using the Residue Theorem</b> . . . . .	19
<b>10.3 Problems</b> . . . . .	23
<b>10.4 Improper Real Integrals</b> . . . . .	25
<b>10.5 Problems</b> . . . . .	42
<b>10.6 The Summation of Series</b> . . . . .	46
<b>10.7 Problems</b> . . . . .	51
<b>10.8 Meromorphic Functions</b> . . . . .	53
<b>10.9 Problems</b> . . . . .	57
<b>Unit 11 Analytic Functions</b>	
Conventions . . . . .	60
<b>11.0 Introduction</b> . . . . .	61
<b>11.1 Uniform Convergence</b> . . . . .	62
<b>11.2 Problems</b> . . . . .	72
<b>11.3 Definition of Analytic Functions by Means of Integrals</b> . . . . .	75
<b>11.4 Problems</b> . . . . .	79
<b>11.5 Analytic Continuation</b> . . . . .	81
<b>11.6 Riemann Surfaces</b> . . . . .	91
<b>11.7 Problems</b> . . . . .	99
<b>11.8 Applications:</b>	
Rouché's Theorem and the Principle of the Argument . . . . .	101
More Contour Integrals . . . . .	105
The Schwarz Reflection Principle . . . . .	113
Analytic Continuation by Taylor Series . . . . .	115
<b>Notation</b> . . . . .	121
<b>Index</b> . . . . .	123
