

# Table of Contents

Chapter I. Complex Manifolds and Vector Bundles . . . . .	1
§ 1. Complex Manifolds and the Example of the Complex Tori . . . . .	1
§ 2. Complex Analytic Vector Bundles and the Example of Line Bundles of Divisors . . . . .	6
§ 3. Factors of Automorphy and Complex Analytic Vector Bundles. . .	13
Chapter II. Riemann Surfaces. . . . .	17
§ 4. Markings of Riemann Surfaces and Characteristic Classes of Factors of Automorphy . . . . .	17
§ 5. Abelian Differentials and the Jacobi Variety of a Riemann Surface. . . . .	24
§ 6. Meromorphic Abelian Differentials and the Prime Function of a Riemann Surface . . . . .	33
Chapter III. Generalized Theta Functions . . . . .	39
§ 7. Theta Factors of Automorphy and Generalized Theta Functions .	39
§ 8. Generalized Theta Functions and Canonical Subvarieties of the Jacobi Variety. . . . .	47
§ 9. Relations Between Theta Factors of Automorphy . . . . .	60
§ 10. Dimensions of Spaces of Generalized Theta Functions . . . . .	70
§ 11. Induced Theta Factors and Theta Functions on Riemann Surfaces . . . . .	78
Chapter IV. Prym Differentials . . . . .	91
§ 12. Prym Differentials and Generalized Theta Functions . . . . .	91
§ 13. Periods and the Period Matrix for Prym Differentials . . . . .	102
§ 14. The Riemann Equality for Prym Periods . . . . .	118
§ 15. Regular Prym Differentials . . . . .	126
Appendix. Some Topics in the Classical Theory of Theta Functions . . .	130
§ 16. Classification of Scalar Factors of Automorphy for Complex Tori	130
§ 17. Relatively Automorphic Functions: the Theta Series . . . . .	138
§ 18. Jacobi Varieties: Abelian and Riemannian Theta Functions . . .	144
§ 19. Some Analytic Cohomology Groups for Complex Tori . . . . .	155
