

CONTENTS

| | Page |
|---|------|
| §1. Introduction | 1 |
| Part I: Description of the pseudogroups | |
| §2. The group of k-jets and its Lie algebra | 7 |
| §3. The pseudogroups defined by partial differential equations | 16 |
| §4. The classification of tangentially transitive pseudogroups: algebraic aspects | 21 |
| §5. The classification of tangentially transitive pseudogroups: analytic aspects | 39 |
| Part II: Description of the connections | |
| §6. Pseudogroup structures and their associated connections | 53 |
| §7. Complex analytic affine connections | 68 |
| §8. Complex analytic projective connections | 79 |
| §9. Complex analytic canonical connections | 95 |
| Part III: Complex analytic surfaces | |
| §10. Complex flat canonical structures on surfaces | 101 |
| §11. Complex affine structures on surfaces | 109 |
| §12. Complex projective structures on surfaces | 123 |
| Bibliography | 137 |
