Foreword	xi
<i>William F. Buskist</i>	
Preface	xv
<i>Dana S. Dunn, Randolph A. Smith, and Bernard C. Beins</i>	
Contributors	xix
Part I Introducing Best Practices	
1 Overview: Best Practices for Teaching Research Methods and Statistics in the Behavioral Sciences	3
<i>Dana S. Dunn, Randolph A. Smith, and Bernard C. Beins</i>	
Part II Basic Issues for Best Practices	
2 Student–Faculty Research Collaboration: A Model for Success in Psychology	15
<i>Steven F. Davis</i>	
3 Changing Topics and Trends in Introductory Statistics	25
<i>Roger E. Kirk</i>	
4 Creating Syllabi for Statistics and Research Methods Courses	45
<i>R. Eric Landrum and Randolph A. Smith</i>	
5 Assessing Students’ Research Ideas	59
<i>Paul C. Smith</i>	

Part III Approaches to Teaching Statistics

- 6** Designing Effective Examples and Problems for Teaching Statistics **73**
Stephen L. Chew
- 7** Designing an Online Introductory Statistics Course **93**
Charles M. Harris, James G. Mazoué, Hasan Hamdan, and Arlene R. Casiple
- 8** Beyond Basics: Enhancing Undergraduate Statistics Instruction **109**
Karen Brakke, Janie H. Wilson, and Dolores V. Bradley

Part IV Emerging Approaches to Teaching Research Methods

- 9** Hands-On Labs in Content Area Methods Courses **125**
Ruth L. Ault, Margaret P. Munger, Scott Tonidandel, Cole Barton, and Kristi S. Multhaup
- 10** Innovative Approaches to Teaching Statistics and Research Methods: Just-in-Time Teaching, Interteaching, and Learning Communities **143**
Kenneth E. Barron, James O. Benedict, Bryan K. Saville, Sherry L. Serdikoff, and Tracy E. Zinn
- 11** Teaching Ethics in Research Methods Classes **159**
Edward P. Kardas and Chris Spatz
- 12** Upper Division Research Methods: From Idea to Print in a Semester **173**
Kenneth D. Keith, Jody Meerdink, and Adriana Molitor

Part V Integrative Approaches to Teaching Methods and Statistics

- 13** Benefits and Detriments of Integrating Statistics and Research Methods **187**
Andrew N. Christopher, Mark I. Walter, Robert S. Horton, and Pam Marek

14	Integrating Computer Applications in Statistics and Research Methods	203
	<i>Bernard C. Beins and Ann Lynn</i>	
15	Through the Curriculum and Beyond: Giving Students Professional Opportunities in Research	221
	<i>Randolph A. Smith</i>	
	Part VI Special Topics: Diversity Issues and Writing	
16	Understanding the Mosaic of Humanity Through Research Methodology: Infusing Diversity Into Research Methods Courses	237
	<i>Linda M. Woolf and Michael R. Hulsizer</i>	
17	Teaching Writing in Statistics and Research Methods: Addressing Objectives, Intensive Issues, and Style	257
	<i>Michelle E. Schmidt and Dana S. Dunn</i>
