

# *Contents*

Editor's Preface	v
Preface	vi
1. Functions	1
2. The Euler Integrals and the Gauss Formula	11
3. Large Values of $x$ and the Multiplication Formula	20
4. The Connection with $\sin x$	25
5. Applications to Definite Integrals	28
6. Determining $\Gamma(x)$ by Functional Equations	33
Index	39
