

<b>Acknowledgments</b>	viii
<b>0 Introduction</b>	1
<b>1 Basic Acoustics and Acoustic Filters</b>	3
1.1 The sensation of sound	3
1.2 The propagation of sound	4
1.3 Types of sounds	7
1.3.1 <i>Simple periodic waves</i>	7
1.3.2 <i>Complex periodic waves</i>	9
1.3.3 <i>Aperiodic waves</i>	14
1.4 Acoustic filters	16
Exercises	20
<b>2 Digital Signal Processing</b>	22
2.1 Continuous versus discrete signals	22
2.2 Analog-to-digital conversion	23
2.2.1 <i>Sampling</i>	24
2.2.2 <i>Quantization</i>	28
2.3 Signal analysis methods	33
2.3.1 <i>Auto-correlation pitch tracking</i>	33
2.3.2 <i>RMS amplitude</i>	36
2.3.3 <i>Fast Fourier transform (FFT)</i>	37
2.3.4 <i>Linear predictive coding (LPC)</i>	40
2.3.5 <i>Spectra and spectrograms</i>	44
Exercises	47

<b>3 Basic Audition</b>	49
3.1 Anatomy of the peripheral auditory system	49
3.2 The auditory sensation of loudness	50
3.3 Frequency response of the auditory system	54
3.4 Auditory representations	57
Exercises	62
<b>4 The Acoustic Theory of Speech Production: Deriving Schwa</b>	63
4.1 Voicing	63
4.2 Voicing quanta	67
4.3 Vocal tract filtering	69
4.4 Pendulums, standing waves, and vowel formants	70
4.5 LPC spectral analysis	85
Exercises	89
<b>5 Vowels</b>	91
5.1 Tube models of vowel production	91
5.2 Perturbation theory	97
5.3 "Preferred" vowels – quantal theory and adaptive dispersion	102
5.4 Vowel formants and the acoustic vowel space	105
5.5 Auditory and acoustic representations of vowels	107
Exercises	108
<b>6 Fricatives</b>	110
6.1 Turbulence	110
6.2 Place of articulation in fricatives	115
6.3 Quantal theory and fricatives	119
6.4 Fricative auditory spectra	121
Exercises	124
<b>7 Stops and Affricates</b>	126
7.1 Source functions for stops and affricates	127
7.1.1 <i>Phonation types</i>	127
7.1.2 <i>Sound sources in stops and affricates</i>	130
7.2 Vocal tract filter functions in stops	134
7.3 Affricates	137
7.4 Auditory properties of stops	137
Exercises	140

<b>8 Nasals and Laterals</b>	141
8.1 Bandwidth	141
8.2 Nasal stops	143
8.3 Laterals	153
8.4 Nasalization	157
Exercises	160
<b>References</b>	161
<b>Index</b>	166
