

## CONTENTS

<b>Preface</b> .....	vii
<b>Chapter 0. Introductory Material</b> .....	1
<b>Chapter 1. Functional Operators</b>	
1. Weighted Shift Operators. Boundedness Conditions .....	17
2. The Operator Approach. Model Examples .....	27
3. Discussion of the Model Examples Discontinuity of the Spectral Radius .....	36
4. Operators Generated by a Finite Transformation Group .....	38
5. Spectral Radius of a Weighted Shift Operator .....	42
<b>Chapter 2. Banach Algebras Generated by Functional Operators</b>	
6. Extension of Operator Algebras by Operators that Generate Automorphisms .....	49
7. The Isomorphism Theorem for $C^*$ -Algebras Generated by Dynamical Systems .....	53
8. Corollaries of the Isomorphism Theorem .....	64
<b>Chapter 3. Invertibility Conditions for Functional Operators. <math>L_2</math>-Theory</b>	
9. Characterization of Invertible Operators by Means of Hyperbolic Linear Extensions .....	77
10. Discretization as an Orbital Approach to Study Invertibility .....	90
11. Operators with a Convex Rationally Independent System of Shifts ...	96
12. Algebras of Type $C^*(A, G, T_g)$ in the Case of an Arbitrary Group Action .....	102
<b>Chapter 4. Functional Operators in Some Special Function Spaces</b>	
13. Weighted Shift Operators in Spaces of Smooth Functions .....	107
14. Functional Equations in a Space of Periodic Distributions .....	119

**Chapter 5. Applications to Some Classes of Equations  
and Boundary Value Problems**

15. Functional-Differential Equations of Neutral Type .....	125
16. The Symbol of a Functional-Partial Differential Operator .....	128
17. Nonlocal Boundary Value Problems for Elliptic Equations .....	136
18. Equations with Periodic and Almost Periodic Coefficients .....	141
19. Boundary Value Problems with Data on the Entire Boundary for the Equation of a Vibrating String .....	146
20. Index Formulas .....	151
<b>Comments and Bibliographic Information</b> .....	159
<b>References</b> .....	165
<b>Index</b> .....	177
