

Contents

Preface

Some aspects of the process of formulation of mathematical models 1

Part I: Simple illustrative examples

1. Estimating route lengths 17
*Ray Abrines (Kingston Polytechnic) and
Peter Hudson (Teesside Polytechnic)*
2. Forest management 29
Ian Huntley (Sheffield City Polytechnic)
3. Apportionment 37
David Burghes (Exeter University)
4. The length of a roll of toilet paper 51
Don Thatcher (Leicester Polytechnic)
5. Can water in a boat ever make it more stable? 59
George Hall (Nottingham University)

Part II: Models for class development

6. Accident investigations 67
*Roy Smith (Leicester Polytechnic) and
John Hurst (Coventry Polytechnic)*
7. Insulating a house 81
John Berry (Plymouth Polytechnic)
8. Basketball shooting 97
Stewart Townend (Liverpool Polytechnic)
9. Putting the shot 117
Jim Tabor (Coventry Polytechnic)
10. Epidemics and the spread of diseases 147
Glyn James and Nigel Steele (Coventry Polytechnic)
11. Pollution of the Great Lakes 181
David Le Masurier (Brighton Polytechnic)
12. Quarrying for sand 195
Leon Walker (Paisley College)
13. The Ruritanian Sports and Social Club 213
Ian Huntley (Sheffield City Polytechnic)

14. Indian population projectories 231
Ian Huntley and Graham Raggett (Sheffield City Polytechnic)
15. Biological cell populations 255
John Usher and Ian Mackenzie (Robert Gordon's Institute)
16. Marketing a new variety of seed 273
John Berry (Plymouth Polytechnic)
17. Modelling plant growth 283
Alfredo Moscardini (Sunderland Polytechnic)

Part III: Extended problems

18. Valve design in the treatment of hydrocephalus 305
David Burley (Sheffield University)
19. Why airlines sometimes overbook flights 323
Dick Clements (Bristol University)
20. Estimating fertilizer requirements of vegetable crops 341
Tony Barnes (University of Queensland)
21. Leylandia vehicles required General Insurance 357
Martin Wilson (Coventry Polytechnic)
22. Windmill power 373
Keith Oke (South Bank Polytechnic)
23. Arcrite Pipework Limited 393
*Ken Jukes (Bristol Polytechnic) and
Don Thatcher (Leicester Polytechnic)*
24. Signal flags 413
George Hall (Nottingham University)

Part IV: Further problem statements

25. Emergency evacuation times for educational buildings 425
Mike O'Carroll (Sunderland Polytechnic)
26. Road safety 439
Doug Haynes (Liverpool Polytechnic)
27. Sheep farming 449
Dilwyn Edwards (Thames Polytechnic)
28. Loading tiles into boxes 455
George Hall (Nottingham University)
