

CONTENTS

INTRODUCTION	v
<i>CHAPTER 0</i>									1
PRELIMINARY NOTIONS OF ALGEBRA AND TOPOLOGY									
0•A VECTOR SPACES									
0•A.0	PRELIMINARIES	1
.1	INDUCTIVE LIMITS OF VECTOR SPACES...	1
.2	PROJECTIVE LIMITS OF VECTOR SPACES..	3
.3	DISKS IN VECTOR SPACES..	4
.4	GAUGES OF DISKS AND SEMI-NORMS	7
.5	THE SPACES E_A	8
0•B PRELIMINARIES OF GENERAL TOPOLOGY AND NORMED SPACES									
0•B	11
0•C TOPOLOGICAL VECTOR SPACES									
0•C.1	DEFINITION..	12
.2	CHARACTERISATION OF THE FILTER OF NEIGHBOURHOODS OF ZERO	12
.3	ON THE CLOSURE OF DISKS IN TOPOLOGICAL VECTOR SPACES..	13
.4	LOCALLY CONVEX SPACES...	14

CHAPTER IV ... 47

"TOPOLOGY - BORNOLOGY": INTERNAL DUALITY

4:1 COMPATIBLE TOPOLOGIES AND BORNOLOGIES. ... 47
:2 CHARACTERISATION OF BORNOLOGICAL TOPOLOGIES. ... 51
:3 COMPLETELY BORNOLOGICAL SPACES.. ... 53
:4 THE CLOSED GRAPH THEOREM.. ... 55

CHAPTER V ... 62

"TOPOLOGY - BORNOLOGY": EXTERNAL DUALITY

I: THE FUNDAMENTAL PRINCIPLES OF DUALITY

5:0 PRELIMINARIES: THE HAHN-BANACH THEOREM AND ITS CONSEQUENCES ... 63
:1 THE EXTERNAL DUALITY BETWEEN TOPOLOGY AND BORNOLOGY ... 68
:2 DUALITY BETWEEN EQUICONTINUOUS AND EQUIBOUNDED SETS IN A DUAL SPACE.. ... 71
:3 COMPLETENESS OF THE EQUICONTINUOUS BORNOLOGY: COMPLETELY BORNOLOGICAL TOPOLOGY ON A DUAL SPACE ... 75
:4 COMPLETENESS OF THE NATURAL TOPOLOGY ON A BORNOLOGICAL DUAL.. ... 77
:5 EXTERNAL DUALITY BETWEEN BOUNDED AND CONTINUOUS LINEAR MAPS: DUAL MAPS... ... 77

CHAPTER VI ... 81

"TOPOLOGY - BORNOLOGY": EXTERNAL DUALITY

II: WEAKLY COMPACT BORNOLOGIES AND REFLEXIVITY

6:1 WEAK COMPACTNESS OF EQUICONTINUOUS SETS ... 82
:2 THE BORNOLOGY OF WEAKLY COMPACT DISKS AND THE MACKEY-ARENS THEOREM ... 83
:3 WEAKLY COMPACT BORNOLOGIES: REFLEXIVITY ... 86
:4 COMPLETELY REFLEXIVE LOCALLY CONVEX SPACES.. ... 89

CHAPTER VII ... 91

COMPACT BORNOLOGIES

7:1 HYPO-MONTEL SPACES.. ... 92
:2 SCHWARTZ SPACES ... 93
:3 SILVA SPACES.. ... 98

CHAPTER VIII

... 103

DISTRIBUTIONS AND DIFFERENTIAL OPERATORS

8:0 MULTI-DIMENSIONAL NOTATION	103
:1 THE BORNLOGICAL SPACES $\mathbf{E}(\Omega)$ AND $\mathcal{D}(\Omega)$	104
:2 DISTRIBUTIONS AS BOUNDED LINEAR FUNCTIONALS.	105
:3 DIFFERENTIAL OPERATORS AND PARTIAL DIFFERENTIAL EQUATIONS...	106
:4 THE SILVA SPACE $\mathbf{E}'(\Omega)$	108
:5 THE SPACES $\mathbf{E}'(K)$ AND THE BORNLOGICAL STRUCTURE OF $\mathbf{E}'(\Omega)$	109
:6 THE GENERAL EXISTENCE THEOREM FOR INFINITELY DIFFERENTIABLE SOLUTIONS	110
:7 PROOF OF THE EXISTENCE THEOREM: SUFFICIENCY.	111
:8 PROOF OF THE EXISTENCE THEOREM: NECESSITY...	112
:9 EXISTENCE THEOREM FOR PARTIAL DIFFERENTIAL EQUATIONS WITH CONSTANT COEFFICIENTS	113
<i>Appendix:</i> EXISTENCE OF A FUNDAMENTAL SOLUTION..	114

EXERCISES

EXERCISES ON CHAPTER I..	118
EXERCISES ON CHAPTER II.	123
EXERCISES ON CHAPTER III	126
EXERCISES ON CHAPTER IV.	129
EXERCISES ON CHAPTER V..	132
EXERCISES ON CHAPTER VI.	135
EXERCISES ON CHAPTER VII	137
