

CONTENTS

	Editorial Introduction	7
KAILATH, T.	A theorem of I. Schur and its impact on modern signal processing	9
SCHUR, I.	On power series which are bounded in the interior of the unit circle I	31
SCHUR, I.	On power series which are bounded in the interior of the unit circle II	61
ALPAY, D.; DYM, H.	On applications of reproducing kernel spaces to the Schur algorithm and rational J unitary factorization	89
BULTHEEL, A.	On the convergence of Schur parameters for a Toeplitz matrix with a meromorphic symbol	161
CONSTANTINESCU, T.	Schur analysis of positive block-matrices	191
FOIAS, C.; FRAZHO, A.E.	On the Schur representation in the commutant lifting theorem. 1	207
FRAZHO, A.E.	Three inverse scattering algorithms for the lifting theorem	219
GOHBERG, I.; RUBINSTEIN, S.	Stability of minimal fractional decompositions of rational matrix functions	249
KOLTRACHT, I.; LANCASTER, P.	Condition numbers of Toeplitz and block Toeplitz matrices	271
LEV-ARI, H.; KAILATH, T.	Triangular factorization of structured Hermitian matrices	301
