## Key Note Abstract

<i>Hello Data Web - Exposing the Data Web</i> Kingsley Idehen	9
--	---

## Regular Papers

<i>Alternative Searching Services: Seven Theses on the Importance of “Social Bookmarking”</i> Gernot Graefe, Christian Maaß, Andreas Heß	11
<i>Collaborative Web-Publishing with a Semantic Wiki</i> Rico Landefeld, Harald Sack	23
<i>Weaving Space into the Web of Trust: An Asymmetric Spatial Trust Model for Social Networks</i> Mohamed Bishr	35
<i>A Prototype to Explore Content and Context on Social Community Sites</i> Uldis Bojārs, Benjamin Heitmann, Eyal Oren	47
<i>RDF Support in the Virtuoso DBMS</i> Orri Erling, Ivan Mikhailov	59
<i>Implementing SPARQL Support for Relational Databases and Possible Enhancements</i> Christian Weiske, Sören Auer	69
<i>Collaborative Metadata for Geographic Information</i> Patrick Maué	81
<i>Mapping Cognitive Models to Social Semantic Spaces - Collaborative Development of Project Ontologies</i> Thomas Riechert, Steffen Lohmann	91
<i>Discovering Unknown Connections - the DBpedia Relationship Finder</i> Jens Lehmann, Jörg Schüppel, Sören Auer	99

## Contributions from the Project SoftWiki

<i>SWORE - SoftWiki Ontology for Requirements Engineering</i> Thomas Riechert, Kim Lauenroth, Jens Lehmann	111
<i>A Processmodel for Wiki-Based Requirements Engineering Supported by Semantic Web Technologies</i> Mariele Hagen, Berit Jungmann, Kim Lauenroth	119

<i>Supporting Requirements Elicitation by Semantic Preprocessing of Document Collections</i>	139
Haiko Cyriaks, Steffen Lohmann, Horst Stolz, Veli Velioglu, Jürgen Ziegler	
<i>Ways of Participation and Development of Shared Understanding in Distributed Requirements Engineering</i>	147
Steffen Lohmann, Jürgen Ziegler	
<b>Demonstration and Poster Papers</b>	
<i>Galaxy: IBM Ontological Network Miner</i>	157
John Judge, Mikhail Sogrin, Alexander Trousov	
<i>IMAGENOTION - Collaborative Semantic Annotation of Images and Image Parts and Work Integrated Creation of Ontologies</i>	161
Andreas Walter, Gabor Nagypal	
<i>Semantic Integrator: Semi-Automatically Enhancing Social Semantic Web Environments</i>	167
Steffen Lohmann, Philipp Heim, Jürgen Ziegler	
<i>Semantic Wikipedia - Checking the Premises</i>	173
Rainer Hammwöhner	
<i>Exploring the Netherlands on a Semantic Path</i>	179
Michael Martin
