1	Introduction.....	1
2	Theoretical Background.....	6
	2.1 Acoustics.....	6
	2.1.1 Speech Production, Transmission, and Perception.....	6
	2.1.2 Suprasegmentals.....	9
	2.1.3 Summary.....	16
	2.2 Pathological Language.....	17
	2.2.1 Aphasia.....	17
	2.2.2 Diagnosis of Aphasia.....	25
	2.2.3 Apraxia.....	28
	2.2.4 Aphasia and Verbal Working Memory.....	30
	2.2.5 Summary.....	30
	2.3 Lateralization and Linguistic Prosody.....	31
	2.3.1 Linguistic and Emotional Prosody.....	31
	2.3.2 Methods in Brain Studies.....	32
	2.3.3 Clinical Studies.....	34
	2.3.4 Lateralization of Linguistic Prosody.....	34
	2.3.5 Summary.....	44
	2.4 Language Comprehension Depending on Stress and Intonation.....	48
	2.4.1 Summary.....	54
3	Method.....	56
	3.1 Experiments.....	56
	3.1.1 Experiment I: ICRS.....	59
	3.1.2 Experiment II: MTTS.....	63
	3.2 Experimental Procedure.....	72
	3.2.1 Ethics.....	72
	3.2.2 Subjects.....	73
	3.2.3 Empirical Setting.....	73
	3.2.4 Procedure.....	74
4	Results and Discussion.....	76
	4.1 Experiment I: ICRS.....	76
	4.1.1 Test 1 and Test 2.....	78
	4.1.2 The Influence of Gender and Age.....	90
	4.1.3 Summary.....	96
	4.2 Experiment II: MTTS.....	98
	4.2.1 MT and Subtests I - V.....	99
	4.2.2 The Influence of Gender and Age.....	109
	4.2.3 Summary.....	111
	4.3 ICRS and MT.....	113
5	Discussion and Outlook.....	115

Bibliography	126
A Sentence Generator	138
B Intonation Contour Recognition Screening	141
C Modified Token Test Screening	143
C.1 German Original Version	143
C.2 English Translation	146
D Subjects	148
E Statistics	152
E.1 Statistical Results for the ICRS	152
E.2 Statistical Results for the MTTS	165
