An introduction to rethinking pedagogy for a digital age	1
HELEN BEETHAM AND RHONA SHARPE	

PART I

Models of learning 11

- | | |
|---|----|
| 1 Learning and e-learning: the role of theory | 13 |
| TERRY MAYES AND SARA DE FREITAS | |
| 2 An approach to learning activity design | 26 |
| HELEN BEETHAM | |
| 3 Designing courses for e-learning | 41 |
| RHONA SHARPE AND MARTIN OLIVER | |
| 4 Practices and processes of design for learning | 52 |
| LIZ MASTERMAN AND MIRA VOGEL | |
| 5 Describing ICT-based learning designs that promote quality learning outcomes | 64 |
| RON OLIVER, BARRY HARPER, SANDRA WILLS,
SHIRLEY AGOSTINHO AND JOHN HEDBERG | |

6	Describing learning activities: tools and resources to guide practice	81
	GRÁINNE CONOLE	
7	Representing practitioner experiences through learning design and patterns	92
	PATRICK McANDREW AND PETER GOODYEAR	
8	Learning design systems: current and future developments	103
	SANDY BRITAIN	
PART II		
	The practice of design	115
9	Supporting practitioners' design for learning: principles of effective resources and interventions	117
	RHONA SHARPE AND MARTIN OLIVER	
10	The use of scenarios in designing and delivering e-learning systems	129
	CHRIS FOWLER, JOY VAN HELVERT, MICHAEL GARDNER AND JOHN SCOTT	
11	The art of design	142
	DEREK HARDING AND BRUCE INGRAHAM	
12	Discipline-based designs for learning: the example of professional and vocational education	153
	RACHEL ELLAWAY	
13	Designing for practice: practising design in the social sciences	166
	CHRIS JONES	
14	Designing for mobile and wireless learning	180
	AGNES KUKULSKA-HULME AND JOHN TRAXLER	
15	Building communities of designers	193
	JAMES DALZIEL	
16	New horizons in learning design	207
	ANDREW RAVENSCROFT AND JOHN COOK	

PART III
Resources

219

Appendices

- 1: How people learn, and the implications for design 221*
- 2: Learner differences and their implications for design 224*
- 3: A typology of digital tools and resources for learning 226*
- 4: Learning activity design: a checklist 230*
- 5: Course design checklist 233*
- 6: Storyboard exercise 234*
- 7: Taxonomy of learning activities 235*
- 8: Evaluation framework for learning design tools 238*
- 9: E-learning practice evaluator 240*
- 10: Template for describing a case study in e-learning practice 242*
- 11: A typology of effective interventions that support e-learning practice 247*

Illustrations

Figures

2.1	An outline for a learning activity	29
4.1	Lesson plan laid out in tabular format	55
4.2	Degrees of design manifestation in hypothetical VLE course areas	56
5.1	A temporal sequence describing a rule-based learning design	71
5.2	A description of the learning design in <i>Communicating with the Tired Patient</i>	72
5.3	A temporal sequence describing an incident-based learning design	72
5.4	A description of the learning design in <i>Real-life Cases in Multimedia</i>	73
5.5	Temporal sequence describing a strategy-based learning design	74
5.6	A description of the learning design in <i>Investigating Mathematical Assessment Strategies</i>	75
5.7	Temporal sequence describing a role-based learning design	75
5.8	The learning design underpinning <i>Political Science Simulation</i>	77
7.1	Mechanisms for exploiting vocabularies encoded using XML thesauri	96
7.2	Patterns as part of the development process	98
7.3	The PAT used by OpenLearn	100
10.1	An example of a SUNA-derived needs hierarchy	134
10.2	A design process for e-learning systems	135
10.3	An example of a technical architecture	136
10.4	An example of a needs hierarchy	139
12.1	Screen from an online OSCE station on taking blood pressure exemplifying cognitive mapping in e-learning professional and vocational education activities	161
13.1	Design: an indirect approach	174
15.1	The LAMS authoring interface	196

Tables

5.1	A framework for a learning design typology	68
5.2	Characteristic elements of learning designs	69
8.1	Key activities in learning design and their equivalents within the IMS Learning Design specification	108
8.2	A comparison of selected authoring environments	111
9.1	Extract from the typology of effective interventions	125
10.1	High-level design decision table for the DUS example	140
13.1	Subjects covered by Intute under the title social sciences	167

Boxes

1.1	The TESEP project	22
2.1	The learning styles debate	32
2.2	A note on affordances	34
3.1	Computer-aided assessments into an introductory chemistry course	43
3.2	An example of a course designed according to Salmon's five-stage model	45
3.3	Creating a coherent blended learning experience	47
3.4	The course redesign intensive at Oxford Brookes University	48
11.1	The CAMILLE project	144
11.2	The UK subject centre for English	145
11.3	History example	146
12.1	Virtual patient modalities	155
12.2	Simulating legal negotiations	156
13.1	The Higher Education Academy subject centres	167
13.2	What we know about CSCL	171
13.3	The Open University – design in an industrial model	176
14.1	Examples: connected classroom learning	182
14.2	Example: personalized learning	184
14.3	Examples: authentic and situated learning	185
14.4	Example: informal learning	186
15.1	A sequence of generic educational activities	197
