CONTENTS

Acknowledgments xv

Introduction 1

1. e-Learning: Promise and Pitfalls 7

The e-Learning Bandwagon 8

What Is e-Learning? 10

Self-Study Versus Virtual Classroom e-Learning 11

e-Learning Development Process 13

Two Types of e-Learning Goals: Inform and Perform 17

Is e-Learning Better? Media Comparison Research 19

What Makes e-Learning Unique? 22

e-Learning: The Pitfalls 24

What Is Good e-Courseware? 25

Learning in e-Learning 28

2. How Do People Learn from e-Courses 31

How Do People Learn? 33

How Do e-Lessons Affect Human Learning? 37

What Is Good Research? 42

How Can You Identify Relevant Research? 45

How Do You Interpret Research Statistics? 46

What We Don't Know About Learning 48

3. Applying the Multimedia Principle: Use Words and Graphics Rather Than Words Alone 53

Do Visuals Make a Difference? 55

Multimedia Principle: Include Both Words and Graphics 56

Some Ways to Use Graphics to Promote Learning 60

Psychological Reasons for the Multimedia Principle 65

Evidence for Using Words and Pictures 66

The Multimedia Principle Works Best for Novices 68

Should You Change Static Illustrations into Animations? 69

What We Don't Know About Visuals 72

4. Applying the Contiguity Principle: Align Words to Corresponding Graphics 77

Contiguity Principle 1: Place Printed Words Near Corresponding Graphics 80

Contiguity Principle 2: Synchronize Spoken Words with Corresponding Graphics 86

Psychological Reasons for the Contiguity Principle 89

Evidence for Presenting Printed Words Near Corresponding Graphics 89

Evidence for Presenting Spoken Words at the Same Time as Corresponding Graphics 93

What We Don't Know About Contiguity 93

5. Applying the Modality Principle: Present Words as Audio Narration, Rather Than On-Screen Text 99

Modality Principle: Present Words as Speech Rather Than On-Screen Text 101

Limitations to the Modality Principle 103

Psychological Reasons for the Modality Principle 105

Evidence for Using Spoken Rather Than Printed Text 107

When the Modality Principle Applies 112

What We Don't Know About Modality 113

6. Applying the Redundancy Principle: Explain Visuals with Words in Audio *or* Text: Not Both 117

Redundancy Principle 1: Do Not Add On-Screen Text to Narrated Graphics 119

Psychological Reasons for the Redundancy Principle 121

Evidence for Omitting Redundant On-Screen Text 123

Redundancy Principle 2: Consider Adding On-Screen Text to Narration in Special Situations 125

Psychological Reasons for Exceptions to the Redundancy Principle 126

Evidence for Including Redundant On-Screen Text 127

What We Don't Know About Redundancy 128

7. Applying the Coherence Principle: Adding Interesting Material Can Hurt Learning 133

Coherence Principle 1: Avoid e-Lessons with Extraneous Audio 135

Psychological Reasons to Avoid Extraneous Audio in e-Learning 137

Evidence for Omitting Extraneous Audio 138

Coherence Principle 2: Avoid e-Lessons with Extraneous Graphics 140

Psychological Reasons to Avoid Extraneous Graphics in e-Learning 142

Evidence for Omitting Extraneous Graphics 143

Coherence Principle 3: Avoid e-Lessons with Extraneous Words 145

Psychological Reasons to Avoid Extraneous Words in e-Learning 148

Evidence for Omitting Extraneous Words Added for Interest 148

Evidence for Omitting Extraneous Words Added to Expand on Key Ideas 149

Evidence for Omitting Extraneous Words Added for Technical Depth 150

What We Don't Know About Coherence 150

8. Applying the Personalization Principle: Use Conversational Style and Virtual Coaches 157

Personalization Principle 1: Use Conversational Rather Than Formal Style 160

Psychological Reasons for the Personalization Principle 162

Evidence for Using Conversational Style 163

Promote Personalization Through Voice Quality 166

Promote Personalization Through Polite Speech 166

Personalization Principle 2: Use Effective On-Screen Coaches to Promote Learning 167

Personalization Principle 3: Make the Author Visible to Promote Learning 173

Psychological Reasons for Using a Visible Author 176

Evidence for the Visible Author 177

What We Don't Know About Personalization 177

9. Applying the Segmenting and Pretraining Principles: Managing Complexity by Breaking a Lesson into Parts 183

Segmenting Principle: Break a Continuous Lesson into Bite-Size Segments 185

Psychological Reasons for the Segmenting Principle 189

Evidence for Breaking a Continuous Lesson into Bite-Size Segments 190

Pretraining Principle: Ensure That Learners Know the Names and Characteristics of Key Concepts 190
Psychological Reasons for the Pretraining Principle 192
Evidence for Providing Pretraining in Key Concepts 193
What We Don't Know About Segmenting and Pretraining 195

10. Leveraging Examples in e-Learning 201

Worked Examples Fuel for Learning 202
How Worked Examples Work 204
How to Leverage Worked Examples: Overview 206
Worked Example Principle 1: Transition from Worked Examples to Problems via Fading 207
Worked Example Principle 2: Promote Self-Explanations of Worked-Out Steps 209
Worked Example Principle 3: Supplement Worked Examples with Explanations 212
Worked Example Principle 4: Apply Multimedia Principles to Examples 213
Worked Example Principle 5: Support Learning Transfer 217
Design Guidelines for Near-Transfer Learning 218
Design Guidelines for Far-Transfer Learning 219
What We Don't Know About Worked Examples 226

11. Does Practice Make Perfect? 231

What Is Practice in e-Learning? 233
The Paradox of Practice 234
How to Leverage Practice: Overview 236
Practice Principle 1: Mirror the Job 236
Practice Principle 2: Provide Explanatory Feedback 238
Practice Principle 3: Adapt the Amount and Placement of Practice to Job Performance Requirements 242
Practice Principle 4: Apply Multimedia Principles 249

Practice Principle 5: Transition from Examples to Practice Gradually 251

What We Don't Know About Practice 251

12. Learning Together Virtually 257

What Is Computer-Supported Collaborative Learning (CSCL)? 259

Factors That Make a Difference: Overview 264

Is Problem-Solving Learning Better with CSCL or Solo? 269

Virtual vs. Face-to-Face Group Decisions 270

Software Representations to Support Collaborative Work 272

Group Roles and Assignments in CSCL 274

Team-Building Skills and CSCL Outcomes 276

Collaborative Structures and CSCL Outcomes 278

Collaborative Group Techniques 278

CSCL: The Bottom Line 283

13. Who's in Control? Guidelines for e-Learning Navigation 289

Learner Control Versus Program Control 292

Do Learners Make Good Instructional Decisions? 295

Four Principles for Learner Control: Overview 299

Learner Control Principle 1: Give Experienced Learners Control 299

Learner Control Principle 2: Make Important Instructional Events the Default 302

Learner Control Principle 3: Consider Adaptive Control 303

Learner Control Principle 4: Give Pacing Control 307

Navigational Guidelines for Learner Control 307

What We Don't Know About Learner Control 311

14. e-Learning to Build Thinking Skills 317

What Are Thinking Skills? 320

Can Creativity Be Trained? 321

Building Critical Thinking Skills in the Workforce: Overview 323
Thinking Skills Principle 1: Use Job–Specific Cases 324
Psychological Reasons for Job-Specific Training 328
Evidence for Job-Specific Problem-Solving Training 329
Thinking Skills Principle 2: Make Thinking Processes Explicit 333
Thinking Skills Principle 3: Define Job-Specific Problem-Solving Processes 338
Teaching Thinking Skills: The Bottom Line 339
What We Don't Know About Teaching Thinking Skills 340

15. Simulations and Games in e-Learning 345

The Case for Simulations and Games 347
Do Simulations and Games Teach? 352
Balancing Motivation and Learning 355
Games and Simulations Principle 1: Match Game Types to Learning Goals 357
Games and Simulations Principle 2: Make Learning Essential to Progress 358
Features That Lead to Learning 359
Games and Simulations Principle 3: Build in Guidance 361
Games and Simulations Principle 4: Promote Reflection on Correct Answers 366
Games and Simulations Principle 5: Manage Complexity 367
What We Don't Know About Games and Simulations 374

16. Applying the Guidelines 381

Applying Our Guidelines to Evaluate e-Courseware 382
e-Lesson Reviews 384
Asynchronous Samples One and Two: Design of Databases 388
Synchronous Sample Three: Constructing Formulas in Excel 393

Asynchronous Sample Four: Simulation Course for Commercial Bank Loan Analysis 398
The Next Generation of e-Learning 401
In Conclusion 403
