

Contents

Series Editor's Preface	xiii
Acknowledgments	xv
<i>Introduction: Issues in L2 Speech Production Research</i>	xvii
Overview of Issues in L1 Speech Production Research	xviii
Issues at the Major Stages of L2 Speech Production	xx
General Issues in Speech Production	xxiv
Summary	xxvi
PART I	
1 <i>An Overview of Theories of First Language Speech Production</i>	3
Spreading Activation Theory	3
Levelt's Modular Model of Speech Production	7
Summary	11
2 <i>Issues in First Language Speech Production Research</i>	12
Research Methods Used in Studying Language Production	12
Conceptualization and Speech Planning	15
Lexical Encoding	19
Syntactic Processing	23
Phonological Encoding	27
	vii

Monitoring	29
Neurological Studies of Language Production	33
Summary	35
3 Theories of Automaticity and Their Relation to Speech Production Models	38
Definitions and Characteristics of Automaticity	39
Theories of Automaticity	40
The Role of Theories of Automaticity in L1 Learning and Speech Production	44
Summary	48
Recommended Readings	49
 PART II	
4 Lexical Encoding and the Bilingual Lexicon	55
Lexical Activation and Selection in L2	56
Control in Lexical Encoding	64
Conceptual and Lexical Representation in Bilingual Memory	68
Models of the Organization of the Bilingual Lexicon	71
Code-Switching and Lexical Processing	82
The Influence of L1 on Lexical Encoding	84
The Acquisition of L2 Lexical Knowledge	86
Summary	90
5 Syntactic and Phonological Encoding	91
A General Overview of Syntactic Encoding Processes	91
Diacritic Features: The Encoding of Grammatical Gender	93

Accessing Grammatical Morphemes	97
The Activation of Syntactic Building Procedures	99
Transfer and the Acquisition of L2 Syntactic Knowledge	100
Code-Switching and Syntactic Encoding	107
Summary of Grammatical Encoding Processes	108
General Overview of Phonological Encoding Processes	109
The Activation of the Phonological Form of Lexical Items	111
Shared Versus Separate Phonological and Phonetic Systems	112
The Role of L1 in Phonological and Phonetic Encoding and the Acquisition of L2 Phonology	116
Summary of Phonological Encoding Processes	120
6 <i>Monitoring</i>	122
Monitoring Processes in L2	123
The Role of Attention in Monitoring L2 Speech	130
Monitoring and SLA	132
Summary	135
7 <i>Problem-Solving Mechanisms in L2 Speech</i>	137
Review of Definitions and Characteristics of Communication Strategies	138
Lexical Problem-Solving Mechanisms	140
Grammatical Problem-Solving Mechanisms	146
Phonological Problem-Solving Mechanisms	147
Time Pressure-Related Problem-Solving Mechanisms	150
Communication Strategies and Language Learning	152
Summary	153

Acknowledgments	153
8 <i>Fluency and Automaticity in L2 Speech Production</i>	154
Definitions of Fluency	154
Theories of Automaticity and the Development of L2 Fluency	156
Measures of L2 Fluency	162
Summary	165
9 <i>Conclusion: Toward an Integrated Model of L2 Speech Production</i>	166
The General Characteristics of the Bilingual Speech Production Model	166
Encoding Mechanisms and the Structure of Knowledge Stores in L2 Speech Production	169
Transfer, Code-Switching, and Communication Strategies in the Bilingual Speech Production Model	174
Development of L2 Competence in the Bilingual Model	176
Summary	178
Recommended Readings	179
Glossary	183
References	187
Author Index	211
Subject Index	217
