

TABLE OF CONTENTS

1. RESTRICTING THE RANGE

1. Summary of chapters 1 and 2	1
2. Inequalities	4
3. Standard transitions	8
4. Recurrence	10
5. Restricting the range	12
6. The Markov property	18
7. The convergence of X_J to X	20
8. The distribution of γ_J given X_J	25
9. The joint distribution of $\{X_{J_j}\}$	30
10. The convergence of Q_J to Q	43
11. The distribution of X given X_J	51

2. RESTRICTING THE RANGE; APPLICATIONS

1. Foreword	64
2. The generator	64
3. A theorem of Lévy	68
4. Determining the time scale	71
5. A theorem of Williams	77
6. Transformation of time	78
7. The transient case	89

3. CONSTRUCTING THE GENERAL MARKOV CHAIN

1. Introduction	95
2. The construction	96
3. A process with all states instantaneous and no pseudo-jumps	111
4. An example of Kolmogorov	114
5. Slow convergence	116
6. Smith's phenomenon	119

4. APPENDIX

- | | |
|-----------------|-----|
| 1. Notation | 128 |
| 2. Numbering | 129 |
| 3. Bibliography | 129 |
