Preface	xi
Preface to the Second Edition	xiii
Preface to the First Edition	xv
How to Use This Book	xvii

PART I. PERSPECTIVES ON THE VITAMINS IN NUTRITION

Chapter 1 What Is a Vitamin?	3
I. Thinking about Vitamins	3
II. Vitamin: A Revolutionary Concept	4
III. An Operating Definition of a Vitamin	4
IV. The Recognized Vitamins	5
Study Questions	6
Chapter 2 Discovery of the Vitamins	7
I. The Emergence of Nutrition as a Science	8
II. The Process of Discovery in Nutritional Science	8
III. The Empirical Phase of Vitamin Discovery	9
IV. The Experimental Phase of Vitamin Discovery	12
V. The Vitamine Theory	15
VI. Elucidation of the Vitamins	18
VII. Vitamin Terminology	30
VIII. Other Factors Sometimes Called Vitamins	31
IX. The Modern History of the Vitamins	31
Study Questions and Exercises	32
Recommended Reading	32
Chapter 3 Chemical and Physiological Properties of the Vitamins	35
I. Chemical and Physical Properties of the Vitamins	36
II. Vitamin A	42
III. Vitamin D	45
IV. Vitamin E	47
V. Vitamin K	49
VI. Vitamin C	51
VII. Thiamin	52

VIII. Riboflavin	53
IX. Niacin	54
X. Vitamin B ₆	55
XI. Biotin	56
XII. Pantothenic Acid	56
XIII. Folate	57
XIV. Vitamin B ₁₂	59
XV. General Properties of the Vitamins	60
XVI. Physiological Utilization of the Vitamins	64
XVII. Metabolism of the Vitamins	69
XVIII. Metabolic Functions of the Vitamins	72
Study Questions and Exercises	73
Recommended Reading	73
Chapter 4 Vitamin Deficiency	75
I. The Concept of Vitamin Deficiency	76
II. The Many Causes of Vitamin Deficiencies	78
III. Clinical Manifestations of Vitamin Deficiencies	79
IV. Vitamin Deficiency Diseases: Manifestations of Biochemical Lesions	86
Study Questions and Exercises	92
Recommended Reading	92
PART II. CONSIDERING THE INDIVIDUAL VITAMINS	
Chapter 5 Vitamin A	95
I. Significance of Vitamin A	96
II. Sources of Vitamin A	97
III. Absorption of Vitamin A	99
IV. Transport of Vitamin A	102
V. Metabolism of Vitamin A	109
VI. Excretion of Vitamin A	113
VII. Metabolic Functions of Vitamin A	113
VIII. Vitamin A Deficiency	130
IX. Vitamin A Toxicity	135
X. Case Studies	139
Study Questions and Exercises	141
Recommended Reading	141

Chapter 6	Vitamin D	145
I.	Significance of Vitamin D	146
II.	Sources of Vitamin D	147
III.	Enteric Absorption of Vitamin D	150
IV.	Transport of Vitamin D	151
V.	Metabolism of Vitamin D	154
VI.	Metabolic Functions of Vitamin D	157
VII.	Vitamin D Deficiency	169
VIII.	Vitamin D Toxicity	175
IX.	Case Studies	176
	Study Questions and Exercises	177
	Recommended Reading	177
Chapter 7	Vitamin E	181
I.	Significance of Vitamin E	182
II.	Sources of Vitamin E	182
III.	Absorption of Vitamin E	184
IV.	Transport of Vitamin E	185
V.	Metabolism of Vitamin E	189
VI.	Metabolic Functions of Vitamin E	191
VII.	Vitamin E Deficiency	206
VIII.	Pharmacologic Uses of Vitamin E	207
IX.	Vitamin E Toxicity	208
X.	Case Studies	210
	Study Questions and Exercises	211
	Recommended Reading	212
Chapter 8	Vitamin K	213
I.	The Significance of Vitamin K	214
II.	Sources of Vitamin K	214
III.	Absorption of Vitamin K	216
IV.	Transport of Vitamin K	217
V.	Metabolism of Vitamin K	218
VI.	Metabolic Functions of Vitamin K	221
VII.	Vitamin K Deficiency	227
VIII.	Vitamin K Toxicity	229
IX.	Case Studies	230
	Study Questions and Exercises	232
	Recommended Reading	232
Chapter 9	Vitamin C	235
I.	The Significance of Vitamin C	236
II.	Sources of Vitamin C	236
III.	Absorption of Vitamin C	239
IV.	Transport of Vitamin C	240
V.	Metabolism of Vitamin C	241
VI.	Metabolic Functions of Vitamin C	243
VII.	Vitamin C Deficiency	254
VIII.	Pharmacological Uses of Vitamin C	257
IX.	Vitamin C Toxicity	258
X.	Case Studies	260
	Study Questions and Exercises	262
	Recommended Reading	263

Chapter 10	Thiamin	265
I.	The Significance of Thiamin	266
II.	Sources of Thiamin	266
III.	Absorption of Thiamin	268
IV.	Transport of Thiamin	269
V.	Metabolism of Thiamin	269
VI.	Metabolic Functions of Thiamin	270
VII.	Thiamin Deficiency	274
VIII.	Thiamin Toxicity	278
IX.	Case Studies	278
	Study Questions and Exercises	280
	Recommended Reading	280
Chapter 11	Riboflavin	281
I.	The Significance of Riboflavin	282
II.	Sources of Riboflavin	282
III.	Absorption of Riboflavin	283
IV.	Transport of Riboflavin	284
V.	Metabolism of Riboflavin	285
VI.	Metabolic Functions of Riboflavin	287
VII.	Riboflavin Deficiency	288
VIII.	Riboflavin Toxicity	293
IX.	Case Study	293
	Study Questions and Exercises	294
	Recommended Reading	294
Chapter 12	Niacin	295
I.	The Significance of Niacin	296
II.	Sources of Niacin	296
III.	Absorption of Niacin	298
IV.	Transport of Niacin	298
V.	Metabolism of Niacin	299
VI.	Metabolic Functions of Niacin	303
VII.	Niacin Deficiency	304
VIII.	Pharmacologic Uses of Niacin	307
IX.	Niacin Toxicity	309
X.	Case Study	309
	Study Questions and Exercises	310
	Recommended Reading	311
Chapter 13	Vitamin B₆	313
I.	The Significance of Vitamin B ₆	314
II.	Sources of Vitamin B ₆	314
III.	Absorption of Vitamin B ₆	316
IV.	Transport of Vitamin B ₆	316
V.	Metabolism of Vitamin B ₆	317
VI.	Metabolic Functions of Vitamin B ₆	318
VII.	Vitamin B ₆ Deficiency	323
VIII.	Pharmacologic Uses of Vitamin B ₆	326
IX.	Vitamin B ₆ Toxicity	327
X.	Case Studies	327
	Study Questions and Exercises	329
	Recommended Reading	329

Chapter 14	Biotin	331
I.	The Significance of Biotin	331
II.	Sources of Biotin	332
III.	Absorption of Biotin	334
IV.	Transport of Biotin	334
V.	Metabolism of Biotin	335
VI.	Metabolic Functions of Biotin	336
VII.	Biotin Deficiency	338
VIII.	Biotin Toxicity	341
IX.	Case Study	341
	Study Questions and Exercises	343
	Recommended Reading	344
Chapter 15	Pantothenic Acid	345
I.	The Significance of Pantothenic Acid	345
II.	Sources of Pantothenic Acid	346
III.	Absorption of Pantothenic Acid	347
IV.	Transport of Pantothenic Acid	347
V.	Metabolism of Pantothenic Acid	348
VI.	Metabolic Functions of Pantothenic Acid	350
VII.	Pantothenic Acid Deficiency	352
VIII.	Pantothenic Acid Toxicity	353
IX.	Case Study	353
	Study Questions and Exercises	354
	Recommended Reading	354
Chapter 16	Folate	355
I.	The Significance of Folate	356
II.	Sources of Folate	356
III.	Absorption of Folate	358
IV.	Transport of Folate	360
V.	Metabolism of Folate	362
VI.	Metabolic Functions of Folate	365
VII.	Folate Deficiency	375
VIII.	Pharmacologic Uses of Folate	377
IX.	Folate Toxicity	377
X.	Case Study	378
	Study Questions and Exercises	379
	Recommended Reading	379
Chapter 17	Vitamin B₁₂	381
I.	The Significance of Vitamin B ₁₂	382
II.	Sources of Vitamin B ₁₂	382
III.	Absorption of Vitamin B ₁₂	383
IV.	Transport of Vitamin B ₁₂	385
V.	Metabolism of Vitamin B ₁₂	386
VI.	Metabolic Functions of Vitamin B ₁₂	387
VII.	Vitamin B ₁₂ Deficiency	388
VIII.	Vitamin B ₁₂ Toxicity	395
IX.	Case Study	395
	Study Questions and Exercises	397
	Recommended Reading	397

Chapter 18	Quasi-vitamins	399
I.	Is the List of Vitamins Complete?	400
II.	Choline	401
III.	Carnitine	406
IV.	<i>myo</i> -Inositol	413
V.	Pyrroloquinoline Quinone	418
VI.	Ubiquinones	420
VII.	Flavonoids	422
VIII.	Non-Provitamin A Carotenoids	425
IX.	Orotic Acid	428
X.	<i>p</i> -Aminobenzoic Acid	429
XI.	Lipoic Acid	429
XII.	Ineffective Factors	430
XIII.	Unidentified Growth Factors	431
	Study Questions and Exercises	431
	Recommended Reading	432
 PART III. USING CURRENT KNOWLEDGE OF THE VITAMINS		
Chapter 19	Sources of the Vitamins	437
I.	Vitamins in Foods	437
II.	Vitamin Contents of Feedstuffs	441
III.	Predicting Vitamin Contents	441
IV.	Vitamin Bioavailability	448
V.	Vitamin Losses	449
VI.	Vitamin Supplementation and Fortification of Foods	451
VII.	Vitamins in Human Diets	454
VIII.	Vitamin Supplements	457
IX.	Vitamin Labeling of Foods	459
X.	Vitamins in Livestock Feeds	461
	Study Questions and Exercises	466
	Recommended Reading	467
Chapter 20	Assessing Vitamin Status	469
I.	General Aspects of Nutritional Assessment	469
II.	Assessment of Vitamin Status	471
III.	Vitamin Status of Human Populations	474
	Study Questions and Exercises	483
	Recommended Reading	484
Chapter 21	Quantifying Vitamin Needs	485
I.	Dietary Standards	485
II.	Determining Dietary Standards for Vitamins	486
III.	Factors Affecting Vitamin Requirements	487
IV.	Vitamin Allowances for Humans	494
V.	Vitamin Allowances for Animals	498
	Study Questions and Exercises	502
	Recommended Reading	502

Chapter 22	Vitamin Safety	503
I.	Uses of Vitamins above Required Levels	503
II.	Hazards of Excessive Vitamin Intakes	504
III.	Signs of Hypervitaminoses	505
IV.	Safe Intakes of Vitamins	510
	Study Questions and Exercises	513
	Recommended Reading	514

Appendices

Appendix A	Vitamin Terminology: Past and Present	515
Appendix B	Original Reports for Case Studies	519

Online companion site:

<http://books.elsevier.com/companions/9780121834937>

Appendix C	A Core of Current Vitamin Research Literature	521
Appendix D	Vitamin Contents of Foods	527
Appendix E	Vitamin Contents of Feedstuffs	561
