A model ontology	22
The basic particulars of conversation	23
Identity and individuation of speech acts	26
Moral orders and the structure of people space	27
Indexicals: the priority of pronouns	33
Syntax, semantics and pragmatics elided	40
3 The Linguistic Analysis of Pronouns: Decomposition and Distribution	47
The received account of pronouns	47
Weaknesses of the traditional view	49
Pronouns in contemporary linguistics	50
Anaphoricity and deixis	58
4 The Diversity of Personal-pronoun Inventories and Their Description	60
Typology and universals in pronoun theory	60

Varieties of pronoun systems	63
<i>Membership as an alternative to number</i>	65
<i>Number and markedness</i>	69
Gender	70
Kinship status	73
Social status	74
Other information encoded in pronoun grammar	75
Distinctive features of pronoun systems: summary	79
5 I: The indexicalities of Responsibility and Place	87
The thesis of double location	87
The thesis of double indexicality	91
Variations in personhood and the concept of self	105
The rise and fall of immaterialist alternatives to a social theory of self	114
Pronominal indicators of disturbances in, and dislocations of, personhood	122
Indirect indexicality	127
6 You: The Grammatical Expression of Social Relations	131
Western European pronouns	134
<i>Second-person systems</i>	134
<i>Third-person systems</i>	142
The genesis of a social semantics: the case of Polish	148
The decline and disappearance of a social semantics: the case of English	150
Oriental systems of self–other address	155
Variability and universality	161
7 We: Speaking for More than One	168
The grammar of group indexicality	168
The strange case of <i>on</i> (by M. J. Freyne)	178
<i>On as an undetermined, indefinite, generalizing pronoun</i>	180
<i>On and the personal pronouns</i>	181
<i>On used in the place of nous</i>	183
<i>On as a replacement for the other subject pronouns</i>	189
<i>On the chameleon</i>	191
<i>Conclusion</i>	191
The English indefinite pronoun <i>one</i> and its relatives in some other languages	192
Mass speaking	201
The plural in Japanese	205

8	<i>Yours and Mine</i> : Some Generalizations about Possessive Pronouns	207
	Agency and control: the primacy of the possessive	207
	Semantic dimensions of the possessive	211
	Possessive markedness and the unity of the world	218
	Further formal differentiations of the modes of possession	220
	The semantic multiplicity of possession	225
9	<i>He, She or It</i> : The Enigma of Grammar and Gender	228
	Some mechanisms of grammatical efficacy	229
	The uses of <i>he</i>	230
	The evidence for a Sapir–Whorf influence in the social effects of pronoun choice	234
	<i>I Attempts to study the effects of a special term of masculine gender</i>	234
	<i>II Discriminatory actions as indicators of readings</i>	235
	Proposals and prospects for grammatical reform	237
	Pronominal grammar and social order in other cultures	241
10	The Origins and Development of Pronouns and Pronoun Use	248
	Child-language acquisition	249
	Pronouns in adult address to children	253
	Evidence from other reduced registers of pronoun use	257
	Progressive grammaticalization of pronominal distinctions	264
	Diachronic reconstructions of language histories	269
	Appendix: Pronominalization in Signing Systems	278
	References	280
	Index of Authors	295
	Index of Languages	299
	Index of Subjects	302
