

CONTENTS

Preface to the Classic Edition xv

Preface xxvii

1 INTRODUCTION 1

The Reality of Organizations 2

Definition of an Organization 4

Goal-directed, 4

Boundary-maintaining, 4

Activity Systems, 5

Organizational Structure: Central Variables 6

Coordination and Authority, 6

Bureaucratic Structure, 9

Opening Up the Bureaucratic Model of Organizations 13

Organizations in Relation to Environments, 14

Sources of Change 18

Leadership, 19

Other Organizations, 20

Social and Cultural Forces, 21

Summary 22

Central Themes of the Book, 23

2 THE POPULATION ECOLOGY MODEL 26

An Overview of the Population Ecology Model 27

Variation, 28

Selection, 29

Retention, 30

Evolutionary Theory: Preliminary Considerations 31

Conservative Darwinism, 32

Reform Darwinism, 32

The Three Stage Process: Variation, Selection, Retention 33

The Occurrence of Variations, 34

Consistent Selection Criteria, 34

A Retention Mechanism, 34

The Three Stage Model Applied to Organizations 35

Variation in Organizational Populations, 35

The Selection Process Applied to Social Organization, 39

Retention Systems in Organizations, 47

A Methodological Issue 51

Hypothetical Probability "Predictions", 52

Retrospective Causal Analyses, 53

The Natural Selection Model Cannot Explain Everything, 54

Summary 54

3 ENVIRONMENTS: SOME GENERAL CONSIDERATIONS 56

Environmental Variation 56

Methodological Implications 58

The Environment as Resource Controller 61
Dimensions of Environments 63
Using Multiple Dimensions in Understanding Selection 70
Four Types of Environment, 71
Summary 73

4 VARIATION: INTERDEPENDENCE AND AUTONOMY WITHIN ORGANIZATIONS 75

Limits to Complexity 75
Challenges to Traditional Assumptions, 75
Loose Coupling and Hierarchy 76
Loose Coupling, 77
Hierarchy, 78
The Evolutionary Importance of Hierarchy and Loose Coupling 80
The Importance of Hierarchy, 81
The Importance of Loose Coupling, 82
Error, Chance, and Creativity 86
Chance-Prone Structures:
Examples of Anarchy and Creativity, 87
Organizational Disasters, 89
Intraorganizational Conflict 91
Factors Producing Interunit Conflict, 93
Summary, 96
Innovation and Variability 97
The Diffusion of Innovations, 98
The Adoption of Innovations, 102
Summary of Innovation and Variability, 104
Summary 105

5 ENVIRONMENTAL SELECTION: THE ROLE OF RESOURCES AND INFORMATION 106

Rational Selection Versus Environmental Selection 106

What Is Being Selected? 108

Organizational Forms, 108

Fitness, 109

Environments as Information or Resource Flows 110

Environments as Resource Flows 111

Pure Natural Selection Model, 111

Interorganizational Dependence and Selection, 118

Environments as Information Flows 122

The Information Perspective, 122

Issues Raised by the Information Flow View, 125

Combining the Views: An Example 132

Summary 134

6 STRATEGIC CHOICE: OPPORTUNITIES AND CONSTRAINTS 136

Aspects of Strategic Choice 137

Decision Maker Autonomy and Organizational Change, 138

Organizations May Influence Their Environments, 144

Role of Perception in Strategic Choice, 148

Limits to Strategic Choice 149

Constraints on Choosing New Environments, 149

Limits to Organizational Influence Over Environments, 153

Participants' Perceptions of Reality as Limits to Choice, 157

Summary 159

7 THE CREATION OF ORGANIZATIONS 161

Organizational Entrepreneurs: Motives and Incentives 162

The Role of the State 164

Levels of Analysis: World System or Nation-States?, 164

Political Stability, 166

Ideological Legitimation, 167

**Direct Nation-State Support and Protection of
Organizations, 169**

The Role of the State: Summary, 171

Environmental Variability and Niche Generation 172**Market-Oriented Economy, 172****Urbanization, 173****Political Revolution, 175****Environmental Variability and Niche Generation:
Summary, 176***Patterns of Organizational Creation* 177**Technological Innovations, 178****Access to Wealth and Power, 179****Labor Market Characteristics, 180****An Example of Creation: Credit Reporting Agencies, 181***Constraints on the Viability of New Forms* 183**Work Force Characteristics, 183****Market Characteristics and Economic Concentration, 184****Government Regulation, 186****Constraints on Viability: Summary, 187***Summary* 188**8 PERSISTENCE AND TRANSFORMATION OF ORGANIZATIONS 189***Preliminary Issues* 190**Types of Change, 190***Persistence: A Population Perspective* 193**Stinchcombe's Examples, 193****Explanations for Persistence, 195***Persistence: Individual Organizations* 197**Internal Factors in Persistence, 197****External Forces in Persistence, 199***Transformation: Single Organizations* 203**Internal Forces: Growth, Power, and Goals, 204****External Forces in Transformation, 212****Transformation: Summary, 217***Summary* 218

9 BOUNDARIES AND ORGANIZATIONAL RESPONSIVENESS 219

Defining Boundaries, Authorities and Members 220

Boundaries and Organizational Authorities, 221

Limits to Organizational Authority, 223

Pressures for Responsiveness in Recruiting Employees, 228

Member Autonomy and Organizational Responsiveness 232

Responses to Declining Organizational Performance, 233

Under What Conditions are Options Chosen?, 236

Management's Responses to Exit and Voice, 239

Member Autonomy and Organizational Responsiveness:

Summary, 241

Summary 242

10 SPANNING ORGANIZATIONAL BOUNDARIES 243

Interorganizational Conflict and Member Compliance 244

Expanding or Constricting Boundaries, 244

Conflict Strategies and Boundary Control, 246

Conflict and Compliance: Summary, 248

Boundary-Spanning Roles 248

Functions of Boundary Roles, 249

The Creation of Boundary Roles, 255

Role Specificity, Discretion, and Power, 259

Summary 263

11 INTERORGANIZATIONAL RELATIONS 265

Exchange and Dependence 266

Dependence, 267

Dimensions of Interorganizational Relations 273

Formalization, 273

Intensity, 275

Reciprocity, 276

Standardization, 277

Summary, 278

Interorganizational Relations at the Population Level 279**Organization Sets, 279****Action Sets, 280****Networks, 281***Using the Concept of Organization Set in Studying Change* 284**The Interstate Commerce Commission's Capture by
Special Interests, 284****Organizational Change in the "Culture" Industry, 286***Summary* 290**12 MANAGING INTERDEPENDENCE THROUGH
INTERORGANIZATIONAL RELATIONS** 292*Proprietary Strategies* 293**Aggressive Actions, 294***Dyadic Strategies* 295**Choosing Boards of Directors, 295****Research on Boards of Directors, 298****Mergers and Joint Ventures, 303****Historical Patterns of Merger Activity, 304****Explaining Mergers and Joint Ventures, 307***Action Set Formation* 316**The Development of Action Sets, 317***Summary* 321**13 ORGANIZATIONAL NETWORKS AND ECONOMIC POWER** 323*Evolution of Networks* 323**Networks and Loose Coupling, 325****Selection Pressures and the Role of
Linking-pin Organizations, 327****Network Stability: The Retention Problem, 332****An Example of Network Evolution: The NCAA, 337****Evolution of Networks: Summary, 340**

Networks and Economic Power 340

Kinship Ties Between Corporations, 342

Interlocking Directorates, 343

Bank Centrality, 347

Networks and Economic Power: Summary, 348

Summary 349
