

TABLE OF CONTENTS

PREFACE	111
ABSTRACT	v
Chapter 1. DEGREES OF BELIEF	1
1. Axioms for Degrees of Belief	1
2. Four Examples of Belief Functions	7
3. Upper Probabilities	14
4. The Logical and Subjective Vocabularies	18
5. Probabilities as Degrees of Belief	20
6. Discounting Belief Functions	23
7. A Counterexample	24
8. Axiom III	26
9. Bibliographic Notes	29
Chapter 2. ALLOCATIONS OF PROBABILITY	31
1. Constraint Relations	31
2. Allocations of Probability	36
3. Four Examples of Allocations	40
4. The Allowment of Probability	43
5. Some Simple Consequences of the Axioms	44
6. The Representation Theorem: Finite Case	48
7. Measures on Semifields of Subsets	50
8. The Representation Theorem: General Case	53
9. The Constraint Mapping	62
10. Toward a Better Representation of our Probability	65

Chapter 3. THE THEORY OF BOOLEAN ALGEBRAS	67
1. Partially Ordered Sets	67
2. Boolean Algebras	72
3. The Mappings of Lattice Theory	76
4. Filters and Ideals in Boolean Algebras	79
5. Zorn's Lemma	82
6. Fields of Subsets	84
7. Closure Properties	88
8. Quotients of Boolean Algebras	90
9. Independent Sums of Boolean Algebras	94
Chapter 4. THE MATHEMATICAL REPRESENTATION OF OUR PROBABILITY.	99
1. Probability Algebras	99
2. Constructing Probability Algebras	105
3. Standard Representations for Belief Functions	109
4. Quotients of Probability Algebras	110
5. Orthogonal Sums of Probability Algebras	111
6. Bibliographic Notes	114
Chapter 5. CONDENSABLE ALLOCATIONS	115
1. Condensability	115
2. Mobile Probability Masses	120
3. Upper Probabilities for Finite Subsets	123
4. Commonality Numbers	127
5. Restricting Condensable Allocations	135

Chapter 6. EXTENSION AND COMBINATION	137
1. Extending Allocations of Probability	137
2. Restricted Allocations	142
3. The Combination of Belief Functions	146
4. A Combinatorial Lemma	152
5. Orthogonality and Independence	157
6. The Finite Case	162
7. The Condensable Case	165
8. An Example of Combination	168

Chapter 7. DEMPSTER'S RULES OF CONDITIONING AND COMBINATION	173
1. Dempster's Rule of Conditioning	173
2. The Conditional Allocation	181
3. Two Examples of Conditioning	182
4. Dempster's Rule of Combination: Finite Case	186
5. Dempster's Rule of Combination: General Case	189
6. The Condensable Case	196
7. Cognitive Independence	198
8. Conclusion	203

BIBLIOGRAPHY	205
