|--|----|
| <i>Introduction and preface</i> | 1 |
| <i>1. Foundations</i> | 3 |
| The basic spaces | 3 |
| Random measures and point processes | 5 |
| Examples | 7 |
| Exercises | 9 |
| <i>2. Atoms and diffuse component</i> | 10 |
| Decompositions | 10 |
| Intensities and regularity | 12 |
| Exercises | 15 |
| <i>3. Uniqueness</i> | 16 |
| The general case | 16 |
| Simplicity and diffuseness | 17 |
| Compounds | 19 |
| Exercises | 20 |
| <i>4. Convergence</i> | 21 |
| The general case | 21 |
| Simplicity and diffuseness | 24 |
| The weak topology | 26 |
| Exercises | 27 |
| <i>5. Existence</i> | 29 |
| Limit unknown | 29 |
| General existence criteria | 30 |
| The point process case | 31 |
| Exercises | 33 |
| <i>6. Infinite divisibility, generalities</i> | 33 |
| Representation and convergence | 34 |
| Cluster representations | 39 |
| The canonical measures | 40 |
| Exercises | 44 |
| <i>7. Infinite divisibility, special cases</i> | 45 |
| Independent increments | 45 |
| Simplicity and diffuseness | 48 |
| Exercises | 52 |

Contents

| | |
|---|-----|
| 8. <i>Compounds</i> | 53 |
| The case of relative compactness | 53 |
| Vanishing compounding variables | 55 |
| Thinnings and Cox processes | 57 |
| Exercises | 58 |
| 9. <i>Symmetric distributions</i> | 59 |
| Mixed POISSON and sample processes | 59 |
| The general case | 62 |
| Infinite divisibility | 66 |
| Exercises | 69 |
| 10. <i>Palm distributions</i> | 69 |
| Definitions and basic properties | 69 |
| Uniqueness and continuity | 71 |
| Infinite divisibility | 73 |
| Null-arrays. | 75 |
| Exercises | 77 |
| 11. <i>Characterizations involving Palm distributions</i> | 78 |
| Infinite divisibility | 78 |
| A related factorization | 81 |
| Mixed POISSON and sample processes | 82 |
| Symmetric distributions | 84 |
| Exercises | 87 |
| <i>Appendix</i> | 89 |
| A1. Some basic topology | 89 |
| A2. Monotone class theorems | 89 |
| A3. Some basic probability | 90 |
| A4. Convergence in distribution | 90 |
| A5. LAPLACE transforms | 91 |
| A6. Locally compact spaces | 92 |
| A7. Measures on locally compact spaces | 93 |
| Exercises | 95 |
| Exercises added in proof | 96 |
| <i>References</i> | 97 |
| <i>Indices</i> | 101 |
| Authors | 101 |
| Notation | 102 |
| Terminology | 103 |
| Some scattered topics | 104 |
