List of Contributing Authors .....	xi
Preface .....	xv
Acknowledgements .....	xvii

## PART 1. COMBINATORIAL PROBABILITY

1. Expressions in Terms of Binomial Coefficients for some Multivariate Distributions of Order $k$ .....	1
<i>D. L. Antzoulakos and A. N. Philippou</i>	
2. Success Runs in a Circular Sequence of Independent Bernoulli Trials ....	15
<i>Ch. A. Charalambides</i>	
3. Inversion Techniques and Combinatorial Identities: A Quick Introduction to Hypergeometric Evaluations .....	31
<i>W. Chu</i>	
4. The Two-Color Whitworth Problem for Long Cycles or Long Lines .....	59
<i>F. K. Hwang</i>	
5. Binomial Distributions of Order $k$ on the Circle .....	65
<i>F. S. Makri and A. N. Philippou</i>	
6. Length of the Longest Non-Decreasing Subsequence on Two Symbols ....	83
<i>A. O. Pittenger</i>	
7. Exchangeability and Recursion in the Conditional Distribution Theory of Number and Length of Runs .....	91
<i>E. F. Schuster</i>	
8. The Longest Run of any Letter in a Randomly Generated Word .....	119
<i>K. A. Suman</i>	

## PART 2. RELIABILITY THEORY AND STATISTICS

9. Applications of Consecutive System Reliability in Selecting Acceptance Sampling Strategies ..... 131  
*H-I Ahn and W. Kuo*
10. Exact and Approximate Hypercube Reliabilities ..... 163  
*A. P. Godbole, S. Khunger and E. Ososanya*
11. Runs and Patterns with Applications to Reliability ..... 173  
*W. S. Griffith*
12. Robust Procedures for Detecting Non-Random Patterns ..... 183  
*P. C. O'Brien and M. A. Agin*
13. Reliability of Consecutive Weighted  $k$ -out-of- $n:F$  System ..... 205  
*J-S Wu and R-J Chen*

## PART 3. LIMIT THEOREMS AND APPROXIMATIONS

14. Pattern Recognition in Markov Chains ..... 213  
*D. Banjević*
15. On the Waiting Time of Appearance of Given Patterns ..... 231  
*O. Chryssaphinou, S. Papastavridis and T. Tsapelas*
16. Runs and Excursions ..... 243  
*A. Földes*
17. Applications of the Stein-Chen Method to the Theory of Patterns and Runs: An Annotated Bibliography ..... 253  
*A. P. Godbole*

18. Runs of Superimposed Poisson Processes.....	263
<i>A. P. Godbole and H. Zhang</i>	
19. Circular Overlapping Success Runs.....	287
<i>M. V. Koutras, G. K. Papadopoulos and S.G. Papastavridis</i>	
20. Asymptotic Joint Distribution of Cover Times.....	307
<i>T. F. Móri</i>	
Index.....	329
