Introduction	1
1 Notation and Preliminaries	9
2 Structure of Symmetric Spaces of Noncompact Type	66
3 Tits Geometries	169
4 Action of Isometries on $\tilde{M}(\infty)$	274
5 A Splitting Criterion	337
6 Isometries of \mathbb{R}^n	346
7 Spaces with Euclidean Factors	363
8 Mostow Rigidity Theorem	376
9 Rigidity Theorems and Characterizations of Symmetric Spaces of Higher Rank	399
10 Fundamental Group and Geometry	415
References	429
Index of Definitions and Terminology	437
Index of Notation	441
