

Contents

1 Introduction	1
2 Preliminaries	5
3 Excursion laws	19
4 Approximations to excursion laws	34
5 Excursions in half-space	39
6 Criteria for regularity	49
7 Excursions in Lipschitz regions	72
8 Applications to potential theory	94
9 Angular derivative problem	107
10 Two-dimensional excursions	151
11 Open problems	164
12 References	166
