CHAPTER 1	
Macroeconomic Policies and Instrument Instability	1
1.1 A Keynesian Economy under the Government Budget Constraint	1
1.2 Optimal Policies by Means of Two Instruments	4
1.3 A Combination Policy	8
1.4 The Case Allowing Instrument Cost	10
1.5 Formulation of a Standard Control System	12
REFERENCES	14
CHAPTER 2	
Optimal Control of Linear Discrete-Time Systems	15
2.1 Fundamentals of Discrete-Time Control	15
2.2 Controllers for One-Period Lag Equation Systems	24
2.3 Solving Discrete Riccati Equations	33
2.4 Application to Control of a Dynamic Leontief System	39
2.5 Controller for a Dynamic Inequality System	42
REFERENCES	45
CHAPTER 3	
Observers for Linear Discrete-Time Systems	47
3.1 Preliminaries to Discrete-Time Observers	47
3.2 Luenberger Observers for Discrete-Time Systems	53
3.3 Cost Performance of Optimal Control Incorporating Observers	60
3.4 Recursive Minimum-Cost Observer	63
3.5 Separation of Observer and Controller	70
REFERENCES	75

<b>CHAPTER 4</b>	
<b>Filters for Linear Stochastic Discrete-Time Systems</b>	<b>77</b>
4.1 Preliminary Least-Squares Estimators	77
4.2 Kalman Predictor and Filter	84
4.3 Minimal-Order Observer-Estimators: Existence	92
4.4 Minimal-Order Observer-Estimators: Computation	97
4.5 Economic Applications of Kalman Filtering Methods	105
REFERENCES	110
<b>CHAPTER 5</b>	
<b>Optimal Control of Linear Stochastic Discrete-Time Systems</b>	<b>111</b>
5.1 Controllers for Linear Systems with Additive Disturbances	111
5.2 Controller in an Imperfect Information Case	119
5.3 Controllers for Linear Systems with Stochastic Coefficients	127
5.4 Certainty Equivalence in Stochastic Systems Control by Theil	139
5.5 Optimal Control of Macroeconomic Systems	148
REFERENCES	158
<b>CHAPTER 6</b>	
<b>Stabilization of Economic Systems under the Government Budget Constraint</b>	<b>160</b>
6.1 Dynamic Process of a Government-Budget Constrained Economy	160
6.2 Instability of an Economy with Government Budget Deficits	167
6.3 Instability of an Economy with Government Budget Deficits and Keynesian Policy Assignment (Continuous-Time Case)	169
6.4 Optimal Control of Economic Systems with Bond-Financed Budget Deficits	174
6.5 Optimal Control of an Open Economy with Bond-Financed Budget Deficits	181
REFERENCES	190
<b>APPENDIX</b>	
<b>Differentials of Matrix Traces</b>	<b>192</b>
<b>Author Index</b>	<b>197</b>
<b>Subject Index</b>	<b>201</b>
