	Page
Introduction .....	1
Examples .....	5
Recurrence .....	10
Mean convergence .....	13
Pointwise convergence .....	18
Comments on the ergodic theorem .....	22
Ergodicity .....	25
Consequences of ergodicity.....	31
Mixing .....	36
Measure algebras .....	42
Discrete spectrum .....	46
Automorphisms of compact groups .....	51
Generalized proper values .....	57
Weak topology .....	61
Weak approximation .....	65
Uniform topology.....	69
Uniform approximation .....	74
Category .....	77
Invariant measures .....	81
Invariant measures: the solution .....	84
Invariant measures: the problem .....	87
Generalized ergodic theorems .....	91
Unsolved problems .....	96
References .....	101
