

Contents

- 1 PROBABILITY IN LOGIC, MATHEMATICS AND SCIENCE page 1
Contribution to a Symposium on Probability, printed in *Dialectica*, International Review of Philosophy of Knowledge, 3 (1949), 104
- 2 SOME REMARKS ON THE THEORY OF STATISTICS 10
Read to the Manchester Statistical Society in January 1951, and printed in its *Transactions*
- 3 FACTOR ANALYSIS IN PSYCHOLOGY AS A STATISTICIAN SEES IT 37
Contribution to the Uppsala Symposium on Psychological Factor Analysis, March 1953, printed in *Nordisk Psykologi's* Monograph Series No. 3
- 4 STOCHASTIC PROCESSES OR THE STATISTICS OF CHANGE 49
Based on a lecture given at the Royal and Manchester Statistical Societies' Conference, Manchester, September 1952, and reprinted from *Applied Statistics*, 2 (1953), 44
- 5 THE STATISTICAL ANALYSIS OF STOCHASTIC PROCESSES 70
Contribution to the *Colloque sur l'analyse statistique*, arranged by the Centre Belge de Recherches Mathématiques, Brussels, December 1954, and reprinted from the proceedings of the conference published in 1955

6	APPLICATIONS OF PROBABILITY AND STATISTICAL THEORY IN BIOLOGY	90
	Read at the Third Soviet Mathematical Congress, Moscow, July 1956	
7	IRREVERSIBILITY AND STATISTICAL THEORY	104
	Read at a Conference of the British Society for the History of Science, Philosophy of Science Group, Manchester, September 1956	
8	STATISTICAL INFERENCE	112
	Based on a talk given at an informal Manchester University lecture series in the autumn term, 1956, on the philosophy and methods of science, with an added Appendix
