

# CONTENTS

<i>Chapter</i>		<i>Page</i>
1 Elementary Combinatorial Method; Illustrative Exercises	.. .. .. .. ..	1
2 Definitions and Probability-generating Functions	.. .. .. .. ..	24
3 Moments and Moment-generating Functions	.. .. .. .. ..	37
4 Expectation Techniques	.. .. .. .. ..	57
5 Converse Theorems; Limiting Distributions and their Properties	.. .. .. .. ..	73
6 Distribution Theory of Runs	.. .. .. .. ..	85
7 Derangements and Matching	.. .. .. .. ..	102
8 Multiple Runs both in Line and Ring	.. .. .. .. ..	119
9 Multivariate Moments and Cumulants	.. .. .. .. ..	137
10 Randomisation Problems; Runs of Order	.. .. .. .. ..	150
11 Ranking Tests on the Random Sequence	.. .. .. .. ..	184
12 Variants of the Matching Problem	.. .. .. .. ..	206
13 Combinatorial Extreme-value Distributions	.. .. .. .. ..	221
14 Occupancy	.. .. .. .. ..	242
15 Generalised Bernoulli Numbers	.. .. .. .. ..	287
16 Approximations to Differences of Zero and to Differences of Reciprocal Powers of Unity	.. .. .. .. ..	306
17 Symmetric Functions and Polykays	.. .. .. .. ..	319
18 Non-central Distributions	.. .. .. .. ..	334
Glossary of Notation and Usage	.. .. .. .. ..	347
Index	.. .. .. .. ..	353
