Preface	ix
Section 1	1
Random Variation	1–6
Probability	6–16
Probability scale [7], *equally likely outcomes* [9], *relative frequency approach* [15], *addition law of probability* [14] *discrete variable* [40], *continuous variable* [41]	
Summary	16
Combinations	17–19
Summary	19
Exercises for Section 1	20
General	20
Physical sciences and engineering	20
Biological sciences	21
Social sciences	21

Section 2 22

Probability Distributions I 22–27
Probability distribution [1], *discrete probability distributions* [3], *discrete rectangular distributions* [4], *binomial distribution* [6], *Poisson distribution* [11]
Summary 27

Probability Distributions I – further discussion 27–32
Discrete rectangular distribution [1], *binomial distribution* [6], *Poisson distribution* [13], *cumulative probability distribution* [18]
Summary 33

Probability Distributions II 33–51
Normal distribution [1], *standard normal distribution* [2], *calculation of probabilities for* [6]
Summary 51

Exercises for Section 2 53

Probability distributions I 53

Physical sciences and engineering 54

Biological sciences 55

Social sciences 57

Section 3 58

Sampling 58–65
Population, sample, sampling distribution, Shewart's normal bowl experiment, sampling distribution of the mean [4], *standard error of the mean* [13], *sampling distribution of the median* [18], *non-normal sampling distributions*
Summary 65

Estimation 66–75
Point estimate [9], *interval estimate* [11], *confidence limits* [11]
Summary 75

Testing Hypotheses 76–88
Single sample problems [1], *statistical significance* [6], *null hypothesis* [21], *two sample problems* [31],
Summary 88

Exercises for Section 3 90
Physical sciences and engineering 90
Biological sciences 91
Social sciences 92

Solutions to Exercises, Section 1 94
General 94
Physical sciences and engineering 95
Biological sciences 95
Social sciences 95

Solutions to Exercises, Section 2 96
General 96
Physical sciences and engineering 96
Biological sciences 99
Social sciences 99

Solutions to Exercises, Section 3 101
Physical sciences and engineering 101
Biological sciences 103
Social sciences 105

Tables
e^{-x} 107
Standard normal curve areas 108
Squares and square roots 109
