

CONTENTS

Numbers in parentheses refer to AMS (MOS) 1970 subject classifications.

CONTRIBUTORS TO THE SYMPOSIUM	ix
PREFACE	xi
Molecular Studies of Evolution: A Source of Novel Statistical Problems (62C99, 62F05)	1
<i>Jerzy Neyman</i>	
Asymptotically Efficient Estimation of Nonparametric Regression Coefficients (62G05, 62J05)	29
<i>L. Weiss and J. Wolfowitz</i>	
Optimal Allocation of Observations When Comparing Several Treat- ments with a Control (III): Globally Best One-Sided Intervals for Unequal Variances (62K05, 62F99)	41
<i>Robert Bechhofer and Bruce Turnbull</i>	
On Some Contributions to Multiple Decision Theory (62F07, 62A10)	79
<i>Shanti S. Gupta and Klaus Nagel</i>	
A Decision-Theoretic Approach to the Problem of Testing a Null Hypothesis (62C05, 62F05, 62F15)	103
<i>Herman Rubin</i>	
The Role of Symmetry and Approximation in Exact Design Optimality (62K05)	109
<i>J. Kiefer</i>	
Symmetric Binomial Group-Testing with Three Outcomes (62L05, 62C25, 62N10)	119
<i>M. Sobel, S. Kumar, and S. Blumenthal</i>	

CONTENTS

Detection of Outliers (62F99, 62C99) <i>A. P. Dempster and Bernard Rosner</i>	161
Empirical Bayes Slippage Tests (62C25) <i>J. Van Ryzin</i>	181
Analogues of Linear Combinations of Order Statistics in the Linear Model (62J05, 62G30) <i>P. J. Bickel</i>	207
A Theorem on Exponentially Bounded Stopping Time of Invariant SPRT's with Applications (62L15) <i>R. A. Wijsman</i>	217
Some Aspects of Search Strategies for Wiener Processes (62L05, 62M99) <i>E. M. Klimko and James Yackel</i>	225
Optimal Pari-mutuel Wagering (62C10) <i>James N. Arvesen and Bernard Rosner</i>	239
Nonparametric Procedures for Selecting Fixed-Size Subsets (62G99, 62F07) <i>M. M. Desu and Milton Sobel</i>	255
On a Subset Selection Procedure for the Most Probable Event in a Multinomial Distribution (62F07) <i>S. Panchapakesan</i>	275
On Approximating Constants Required to Implement a Selection Procedure Based on Ranks (62G99, 62F07) <i>Gary C. McDonald</i>	299
Selection Procedures with Respect to Measures of Association (62F07, 62G99) <i>Z. Govindarajulu and Anil P. Gore</i>	313
Sample Size for Selection (62F07) <i>Edward J. Dudewicz and Nicholas A. Zaino, Jr.</i>	347

CONTENTS

Optimal Confidence Intervals for the Largest Location Parameter (62F07, 62F25)	363
<i>Edward J. Dudewicz and Yung Liang Tong</i>	
Non-optimality of Likelihood Ratio Tests for Sequential Detection of Signals in Gaussian Noise (60G35, 62C99)	377
<i>Bennett Eisenberg</i>
