Acknowledgments	ix
Chapter 1 - Overview	1
Chapter 2 - A Three-Tiered Theory of the Syllable	25
2.1 - Well-formed Expressions	25
2.2 - Core Syllables	27
2.3 - Core Syllable Associations	32
2.4 - Core Syllable Division	37
2.5 - A Case Study: English Initial Clusters	41
2.5.1 - Excursus on Acquisition	52
2.6 - Syllable Transformations	53
Chapter 3 - Evidence for the Theory	57
3.1 Evidence for the Syllable Tier	57
3.2 - Evidence for the CV-Tier	62
3.3 - Mapping	64
3.4 - Unassociated CV Elements	67
3.4.1 - Turkish	67
3.4.2 - Finnish	73
3.5 - Compensatory Lengthening	77
3.6 - The Mora	79
3.7 - Branching Segments	85
3.8 - French Liaison and the Feature [+ syllabic]	96
Chapter 4 - Extrasyllabicity and Vowel Epenthesis in Klamath	115
4.1 - Introduction	115
4.2 - Core Syllable Representation	117
4.3 - Epenthesis	122
4.3.1 - Sonorant Cluster Epenthesis	122

4.3.2 · General Epenthesis	124
4.3.3 · Affiliation Rules	127
4.3.4 · Epenthesis in Final Clusters	130
4.3.5 · Glide Epenthesis	133
4.4 · Conclusion	137
 Chapter 5 · Syllable Theory and Global Rules	 139
5.1 · The Problem of Vowel Length in Klamath	139
5.2 · In Preparation for a Solution	142
5.2.1 · Initial Vowel Truncation	142
5.2.2 · Vowel Deletion	143
5.2.3 · Vowel Reduction	144
5.3 · The Cycle in Klamath	151
5.3.1 · Further Evidence for the Cycle	158
5.3.2 · Klamath and the Strict Cycle	165
5.4 · The Solution to Vowel Shortening	168
5.5 · Remarks on a Non-cyclic Alternative	177
5.6 · Conclusion	181
