

# contents

<b>Chapter 1</b>	
What Mathematical Background Is Needed? .....	1
1.1 Introduction .....	1
1.2 Pre-Test .....	2
1.3 The Order of Operations .....	3
1.4 $\Sigma$ Notation .....	4
1.5 Formulas .....	5
1.6 Square Roots and Squares .....	7
1.7 Greek Letters .....	8
1.8 Vocabulary and Symbols .....	8
1.9 Exercises .....	8
<b>Chapter 2</b>	
Introduction to Statistics .....	12
2.1 What Is Statistics? .....	12
2.2 Populations and Samples .....	13
2.3 Types of Data .....	14
2.4 Presentation of Data in a Table .....	15
2.5 How to Group Scores .....	18
2.6 Graphical Presentation of Data .....	20
2.7 Vocabulary and Symbols .....	22
2.8 Exercises .....	23
<b>Chapter 3</b>	
Measures of Center and Location .....	29
3.1 Introduction .....	29
3.2 The Mode .....	29
3.3 The Median .....	30
3.4 The Mean of Ungrouped Data .....	31
3.5 The Mean of Grouped Data .....	34
3.6 Quartiles, Percentiles, and Percentile Rank for Ungrouped Data .....	37
3.7 Vocabulary and Symbols .....	38
3.8 Exercises .....	38
<b>Chapter 4</b>	
Measures of Variability .....	44
4.1 Introduction .....	44
4.2 The Variation Ratio .....	44
4.3 The Range .....	45
4.4 The Semi-interquartile Range $Q$ .....	46
4.5 Criteria for a Measure of Variability .....	46
4.6 Variance and Standard Deviation for Ungrouped Data .....	47
4.7 Variance and Standard Deviation for Grouped Data .....	50

4.8	Measure of Skewness .....	54
4.9	Vocabulary and Symbols .....	54
4.10	Exercises .....	55
Chapter 5		
Probability	.....	59
5.1	Why Study Probability? .....	59
5.2	Definitions of Probability .....	60
5.3	Sample Space and Events .....	62
5.4	Mutually Exclusive Events .....	67
5.5	Axioms of Probability .....	70
5.6	$p(A \text{ or } B)$ if $A$ and $B$ Are Not Mutually Exclusive .....	71
5.7	Independent and Dependent Events, $p(A \text{ and } B)$ .....	73
5.8	Vocabulary and Symbols .....	76
5.9	Exercises .....	76
Chapter 6		
Discrete Probability Distributions	.....	82
6.1	Probability Distributions .....	82
6.2	Pre-Test on Permutations and Combinations .....	84
6.3	Permutations .....	85
6.4	Factorial Notation .....	87
6.5	Combinations .....	88
6.6	Assumptions for a Binomial Distribution .....	89
6.7	$p(X \text{ Successes in } n \text{ Trials})$ .....	90
6.8	Why Is It Called a <i>Binomial</i> Distribution? .....	93
6.9	The Mean and Standard Deviation of a Binomial Distribution .....	93
6.10	Applications of the Binomial Distribution .....	94
6.11	Vocabulary and Symbols .....	94
6.12	Exercises .....	94
Chapter 7		
Normal Distributions and Standard Scores	.....	99
7.1	Histograms of Binomial Distributions .....	99
7.2	Normal Curves .....	101
7.3	The Standard Normal Curve .....	102
7.4	Areas Under the Normal Curve .....	103
7.5	Percentages of Scores Within 1, 2, and 3 Standard Deviations of the Mean .....	108
7.6	Mean and Standard Deviation of a Population .....	109
7.7	Standard Scores, or Scores in Standard Deviation Units .....	110
7.8	Uses of Standard Scores .....	113
7.9	Normal Distributions in General .....	114
7.10	Area Under Any Normal Curve .....	115
7.11	Normal Approximation to the Binomial Distribution .....	118
7.12	Vocabulary and Symbols .....	119
7.13	Exercises .....	119
Chapter 8		
How to Choose a Sample	.....	124
8.1	Formulating a Statistical Experiment .....	124
8.2	Random Samples .....	126
8.3	Other Methods of Sampling .....	128
8.4	Vocabulary .....	129
8.5	Exercises .....	129

Chapter 9

Confidence Intervals for Means ..... 131

9.1 Sampling With and Without Replacement ..... 131

9.2 Sampling Distribution of Means ..... 132

9.3 Central Limit Theorem ..... 135

9.4 Uses of the Sampling Distribution of Means ..... 136

9.5 Statistical Inference ..... 138

9.6 Estimates of the Population Mean If  $\sigma$  Is Known ..... 138

9.7 Biased and Unbiased Estimators ..... 142

9.8 Interval Estimates of  $\mu$  When  $\sigma$  Is Unknown and  $n \geq 30$  ..... 143

9.9 Vocabulary and Symbols ..... 144

9.10 Exercises ..... 144

Chapter 10

Interval Estimates of Proportions, Difference of Means, and Difference of Proportions:  
Sample Size ..... 149

10.1 The Sampling Distribution of Proportions ..... 149

10.2 Interval Estimates of Proportions ..... 152

10.3 The Sampling Distribution of Differences of Means ..... 155

10.4 Use of the Sampling Distribution of Differences of Means ..... 157

10.5 Sampling Distribution of Difference of Proportions ..... 159

10.6 Summary of Formulas for Statistical Inference ..... 162

10.7 Size of a Sample ..... 163

10.8 Sample Size for Estimating Population Means ..... 163

10.9 Sample Size for Proportions ..... 165

10.10 Sample Size for Differences of Means ..... 166

10.11 Sample Size for Differences of Proportions ..... 167

10.12 Vocabulary and Symbols ..... 168

10.13 Exercises ..... 169

Chapter 11

Hypothesis Testing ..... 176

11.1 Introduction ..... 176

11.2 Choosing the Hypothesis to Be Tested ( $H_0$ ) ..... 177

11.3 Choosing the Alternative Hypothesis ( $H_1$ ) ..... 179

11.4 Choosing a Rule for Making a Decision ..... 180

11.5 One-Tail Tests ..... 186

11.6 Type I and Type II Errors ..... 189

11.7 Warnings ..... 195

11.8 Vocabulary and Symbols ..... 196

11.9 Exercises ..... 196

Chapter 12

Student's  $t$  Distributions ..... 204

12.1 The Need for  $t$  Distributions ..... 204

12.2 Characteristics of  $t$  Distributions ..... 206

12.3 When Is a  $t$  Distribution Used? ..... 207

12.4 Degrees of Freedom ..... 208

12.5 Table of  $t$  Distributions ..... 209

12.6 Confidence Intervals for, and Tests of Hypotheses About, the Mean ..... 210

12.7 Differences of Means for Independent Samples ..... 211

12.8 Derivation of  $\sigma_{\bar{x}-\bar{y}}$  When Population Variances Are Equal ..... 214

12.9 Differences Between Means of Dependent Samples ..... 215

12.10 Vocabulary and Symbols ..... 217

12.11 Exercises ..... 217

Chapter 13	
$\chi^2$ (Chi Square) .....	222
13.1 Introduction .....	222
13.2 $\chi^2$ Distributions .....	224
13.3 Testing “Goodness of Fit” with $\chi^2$ .....	226
13.4 Related and Independent Variables; Contingency Tables .....	228
13.5 Yates’ Correction .....	234
13.6 Vocabulary and Symbols .....	235
13.7 Exercises .....	235
Chapter 14	
Analysis of Variance .....	240
14.1 <i>F</i> Distributions .....	240
14.2 How to Use an <i>F</i> Table .....	241
14.3 Use of <i>F</i> Distributions in Testing Hypotheses About Variance .....	243
14.4 Introduction to Analysis of Variance .....	246
14.5 A Shortcut: Subtracting a Constant from Sample Scores .....	251
14.6 Where Do the Computational Formulas Come from? .....	253
14.7 Which Means Are Different? .....	255
14.8 Vocabulary and Symbols .....	256
14.9 Exercises .....	256
Chapter 15	
Linear Regression and Correlation .....	264
15.1 Introduction .....	264
15.2 Graph of a Straight Line .....	265
15.3 The Slope of a Line .....	266
15.4 The Equation of a Line Through Two Given Points .....	269
15.5 The Regression Equation .....	271
15.6 Pearson Correlation Coefficient: Rough Estimates .....	276
15.7 Error, Explained, and Total Variations .....	278
15.8 Computational Formulas for <i>r</i> .....	282
15.9 Some Warnings .....	284
15.10 The Relation Between Regression and Correlation .....	286
15.11 Vocabulary and Symbols .....	286
15.12 Exercises .....	287
Chapter 16	
Linear Regression and Correlation: Statistical Inference .....	295
16.1 Inferences About Regression: Assumptions About the Population .....	295
16.2 Testing $H_0: B = 0$ .....	296
16.3 Confidence and Prediction Intervals for the Regression Equation .....	298
16.4 The Sampling Distribution of <i>r</i> .....	303
16.5 Testing $H_0: \rho = 0$ .....	304
16.6 Testing $H_0: \rho = A, A \neq 0$ .....	306
16.7 Vocabulary and Symbols .....	307
16.8 Exercises .....	307
Chapter 17	
Nonparametric Tests .....	311
17.1 Introduction .....	311
17.2 The Sign Test .....	312
17.3 The Runs Test .....	313

17.4	The Mann-Whitney Test .....	315
17.5	Spearman Rank Correlation Coefficient .....	318
17.6	Vocabulary and Symbols .....	321
17.7	Exercises .....	321
Appendix A		
Symbols .....		327
Appendix B		
Formulas .....		331
Appendix C		
Tables .....		338
1	Squares and Square Roots .....	338
2	Binomial Probabilities .....	344
3	Random Numbers .....	348
4	Areas Under the Normal Curve .....	349
5	Student's <i>t</i> Distributions .....	350
6	$\chi^2$ Distributions .....	351
7	<i>F</i> Distributions .....	352
a	$\alpha = .05$ .....	352
b	$\alpha = .025$ .....	354
c	$\alpha = .01$ .....	356
8	Transformation of <i>r</i> to <i>Z</i> and $\rho$ to $\mu_z$ Values .....	358
9	Runs Test .....	359
10	Critical Values of <i>U</i> in the Mann-Whitney Test .....	360
Index .....		361
