

# Table of Contents

## CHAPTER 1. DECISION ANALYSIS FOR MANAGEMENT

Introduction-----	1
Risk Aversion in Decision Models-----	1
Evaluating Decisions Under Uncertainty-----	15

## CHAPTER 2. DECISION ANALYSIS IN MANAGEMENT: METHODS AND MODELS

Introduction-----	17
Optimization Models: Theory and Practice-----	17
Theory of LP-----	20
Applications of LP Models-----	45
Stochastic Systems as Queuing Models-----	58
Markovian Queue-----	60
Case of Multiple Channels-----	62
Infinite Channel Queue-----	63
Optimizing Decisions Under Queuing Models-----	64
Dynamically Optimum Systems-----	65
Continuous Time Systems-----	65
Discrete Time Systems-----	69

## CHAPTER 3. OPTIMAL DECISION RULES UNDER UNCERTAINTY IN LINEAR AND QUADRATIC MODELS

Introduction-----	77
Linear Quadratic Models: Selected Examples-----	77
Stochastic Programming Models: Selected Examples and New Applications-----	88
Stochastic Control: Selected Examples-----	106
Concluding Remarks-----	119

## CHAPTER 4. INFORMATION AND ITS EFFICIENT USE IN DECISION MODELS

Introduction-----	121
Information and Efficiency in Economic Models-----	124
Optimality of Information in Statistical Models-----	147
Applications in Management Science and Communication Theory-----	152
Concluding Remarks-----	167

<b>CHAPTER 5. PORTFOLIO MODELS IN FINANCIAL MANAGEMENT</b>	
Introduction-----	169
Investment Portfolios and Firm's Production Behavior-----	172
Optimal Diversification of Portfolios-----	174
Portfolio Models Under MSE Criterion-----	175
Econometric Analysis of Portfolio Models-----	186
General Implications-----	197
<b>CHAPTER 6. APPLIED STOCHASTIC MODELS IN OPERATIONS RESEARCH</b>	
Introduction-----	206
Efficiency of Water Allocation Under Stochastic Demand-----	206
Risk Sensitivity of Supply Response-----	225
Optimal Fleet Selection and Bus Scheduling-----	237
Optimal Monopolist Strategy Under Uncertainty-----	252
Applied Models in Stochastic Programming-----	264
Stochastic Program in a Fuzzy Environment-----	264
Robust Decisions in Stochastic Models-----	265
Efficiency in Stochastic Input-Output Systems-----	269
<b>CHAPTER 7. OPTIMAL DECISIONS AND MANAGEMENT MODELS</b>	
Introduction-----	275
Economic Planning Under Uncertainty-----	275
Research Trends and Problems-----	281
<b>INDEX</b>	284
