

CONTENTS

FOREWORD	xv
PREFACE	xvii
ACKNOWLEDGMENTS	xxi
1 INTRODUCTION	1
1.1 Background	1
1.2 Decision under Risk	3
1.3 The Experimental Approach	4
1.3.1 Challenges	5
1.3.2 Misconceptions	6
1.3.3 Some Specific Issues	8
1.4 Plan of This Book	9

2	EXPECTED UTILITY THEORY	11
2.1	Background	11
2.2	Von Neumann-Morgenstern Utility	13
2.3	Empirical Evidence	16
2.3.1	Experimental Studies	17
2.3.2	Field Studies	22
2.4	Conclusions	26
3	ALTERNATIVE DESCRIPTIVE MODELS	28
3.1	Schematic Overview	28
3.2	Holistic Judgment Models	31
3.3	The Information-Processing Perspective	36
3.4	Non-holistic Judgment Models	41
3.5	Conclusions	44
4	A POSITIVISTIC TEST OF EU THEORY: PREFERENCES FOR INFORMATION	45
4.1	The Positivistic View	45
4.2	The Basic Problem	46
4.2.1	Mathematical Structuring	47
4.2.2	The Preference for Information	50
4.2.3	Generalization to n Urns	52
4.3	The Experiment	56
4.4	Results	57
4.5	Conclusions	64
5	AN EXPERIMENTAL STUDY OF INSURANCE DECISIONS	66
5.1	Issues to Be Examined	67
5.2	The Experiment	69
5.3	Results	71
5.3.1	Pure Risk Alternatives	71
5.3.2	Other Factors Affecting Risk Preferences	73
5.3.3	Insurance Preferences	78

5.3.4	Context and Format Effects	81
5.3.5	An Illegitimate Portfolio Effect	83
5.3.6	Comprehensive Insurance	85
5.3.7	Scale Effects	86
5.4	Conclusions	87
6	STATISTICAL KNOWLEDGE AND GAMBLING DECISIONS: MOMENTS VS. RISK DIMENSIONS	91
6.1	Literature	92
6.2	Hypotheses	94
6.3	The Experiment	94
6.4	Results	98
6.4.1	Cognitive Strain	98
6.4.2	Decision Quality	101
6.4.3	Decision Strategy	102
6.5	Regression Findings	104
6.6	Conclusions	107
7	RISK TAKING AND PROBLEM CONTEXT IN THE DOMAIN OF LOSSES	109
7.1	Background	110
7.2	Hypotheses	111
7.2.1	A Markowitz Type of Utility Function	112
7.2.2	The Influence of Problem Context	115
7.3	The Experiment	116
7.4	Results	117
7.4.1	Insurance Preferences	118
7.4.2	The Effect of Context	122
7.5	Conclusions	124
8	EPILOGUE	126
8.1	General Findings	127
8.2	An Integrative Framework	129
8.2.1	The Dependent Variable	129
8.2.2	The Independent Variables	130

8.2.3	The Mapping Function	131
8.2.4	The Present Research	134
8.3	Toward a General Theory	135

APPENDIXES

I	A Generalization of the Formulas for EU with Information	141
II	Questionnaire of the Preferences for Information Study	143
III	Questionnaire of the Insurance Study	148
IV	Analysis of a Duplex Gamble	157
V	Questionnaire of the Statistical Knowledge Study	158
VI	EU Analysis of Dimension Preferences	166
VII	Questionnaire of the Risk Taking and Context Effect Study	169
VIII	Insurance and EU Theory	177
