

# CONTENTS

<i>Acknowledgments</i>	1
<i>MCDM—State and Future of the Arts</i> Martin K. Starr, Milan Zeleny	5
<i>The Evolving Concept of Optimality</i> Peter G.W. Keen	31
<i>A Survey of Multiattribute Utility Theory and Applications</i> Peter H. Farquhar	59
<i>Phased Decision Strategies: Sequels to an Initial Screening</i> Peter L. Wright, Fredrick Barbour	91
<i>Normative Generation of Alternatives with Multiple Criteria Evaluation</i> Martin K. Starr, Leonard H. Greenwood	111
<i>Fuzzy Sets in Multiple Criteria Decision-Making</i> Jean-Marie Blin	129
<i>Adaptive Displacement of Preferences in Decision Making</i> Milan Zeleny	147
<i>Decision Dynamics with an Application to Persuasion and Negotiation</i> Po-lung Yu	159
<i>A Conceptual Framework for a Prescriptive Theory of “Decision-Aid”</i> Bernard Roy	179
<i>Interactive Evaluation and Bound Procedure for Selecting Multi-Attributed Alternatives</i> Rakesh K. Sarin	211
<i>An Interactive Multiple Objective Linear Programming Procedure</i> Ralph E. Steuer	225
<i>The Relevance of Duality in Multiple Objective Linear Programming</i> Heinz Isermann	241
<i>Multiple Criteria Markov Decision Processes</i> B. Viswanathan, V.V. Aggarwal, K.P.K. Nair	263
<i>Integer Goal Programming Methods</i> Sang M. Lee, Richard L. Morris	273

<i>On Being Consistent: The Management of Inquiry as a Multi-Criteria Decision Problem</i>	291
Ian I. Mitroff	
<i>Ph.D. Candidates and MCDM</i>	301
Ronald G. Benson, <i>Interactive goal programming without weights or priorities</i>	302
Vira Chankong, <i>A viewpoint toward the development of multiobjective solution techniques</i>	303
B. Chaudhary, <i>Multiobjective spatial planning in developing countries</i>	305
Richard L. Cook, <i>A study of interactive judgement analysis and the representation of weights in judgement policies</i>	306
Hugh Devine, <i>Comment on application exemplified in management science</i>	307
Ambrose Goicoechea, <i>The protrade method: A multi-objective approach to decision-making</i>	308
Kirk K. Karwan, <i>MCDM and public program management</i>	308
Markku Lahdenpää, <i>On phased models and managers' and consumers' decision making</i>	309
Kathy A. Lewis, <i>Planning equal employment opportunities</i>	312
W. Thomas Lin, <i>A short statement</i>	313
Joel N. Morse, <i>Remarks on MCDM</i>	314
Pat R. Odom, <i>On renewing the innovative thrust of management science through MCDM research</i>	315
Patrick D. Spagon, <i>Requirements for a practical public sector group decision-making process</i>	317
Donald A. Wehrung, <i>Interactive identifications and optimization of preferences in a multi-attributed decision problem</i>	318
<i>Notes about authors</i>	321
<i>Authors' addresses</i>	325
