Introduction	9
1 Why draw statistical maps?	13
2 Statistical techniques	16
2.1 STATISTICAL DIAGRAMS	17
A Techniques showing relationships between quantities	18
<i>Line graphs</i>	18
<i>Bar graphs</i>	22
<i>Circular graphs</i>	23
<i>Logarithmic graphs</i>	25
<i>Scatter graphs (scatter diagrams)</i>	27
B Techniques showing proportions formed by constituent parts	30
<i>Compound line and bar graphs</i>	31
<i>Divided circles or pie graphs</i>	32
<i>Divided rectangles</i>	34
<i>The triangular graph</i>	35
2.2 STATISTICAL MAPS	37
A Non-quantitative statistical maps	37
B Quantitative methods	39
C Quantities distributed at a series of points	40
<i>Repeated symbols</i>	40
<i>Proportional bars</i>	41
<i>Proportional circles</i>	42
<i>Proportional spheres and cubes</i>	42
<i>A range of graduated symbols</i>	43
D Quantities contained within given areas	45
<i>Dot maps</i>	46
<i>Shading maps (choropleth maps)</i>	51
<i>Proportional shading</i>	56
<i>Isoline maps</i>	58
<i>Repeated quantitative symbols</i>	61
<i>Repeated statistical diagrams</i>	62
E Quantities distributed along a line	65

3	Sense from statistics: the search for the significant	68
4	More sense from statistics: sorting-out processes: grouping and dealing with multiple variables	82
4.1	GROUPING TECHNIQUES INVOLVING A SINGLE VARIABLE	82
4.2	MAPPING SITUATIONS WHERE 2 OR MORE VARIABLES ARE INVOLVED	91
A	Methods of dealing with composite aspects of 2 or 3 variables	92
B	Dealing with more than 3 variables	97
C	Mathematical solutions to multivariate problems	101
5	Choosing the right method and making the most of it	102
6	General aspects of map design	117
7	Some worked examples	134
8	Computer mapping	160
8.1	STATISTICAL MAPS PRODUCED BY THE USE OF LINE PRINTERS	160
8.2	STATISTICAL MAPS PRODUCED BY GRAPH PLOTTERS	169
8.3	FURTHER DEVELOPMENTS OF BASIC TECHNIQUES	172
8.4	GENERAL OBSERVATIONS ON COMPUTER MAPPING	173
9	Sources of statistics	174
9.1	SOURCES OF STATISTICS OF A NATIONAL AND INTERNATIONAL NATURE	174
9.2	SOURCES OF BRITISH STATISTICS	177
	<i>Population</i>	183
	<i>Industry and occupation</i>	186
	<i>Agriculture</i>	190
	<i>Transport and communications</i>	191
	General index	193
	Index of places referred to in the text or diagrams	195
