

1	some argument, some arithmetic, and a little psychotherapy	1
	Objectives for Mastery	1
	Basic Concepts	3
	A Fairy Tale	5
	Short Answers	6
	Arithmetic Skills Practice Problems	9 10
2	dimensions, variables, and measurement	13
	Objectives for Mastery	13
	Basic Concepts	15
	A Fairy Tale	17
	Problem 1	17
	Short Answers	18
	Problem 2	20
3	all about graphs	23
	Objectives for Mastery	23
	Basic Concepts	24
	Graphs: Recognition	26
	Steps in Drawing a Graph	28
	Problems	29
	A Furry Tale	33
4	averages: measuring togetherness	35
	Objectives for Mastery	35
	Basic Concepts	36
	Short Answers	38
	Calculation of Averages	39
	A Fairy Tail	41
	Problems	41
	Thoughtful Essay	43
5	variability: measuring apartness	45
	Objectives for Mastery	45
	Basic Concepts	46
	A Fairy Tale	48
	Short Answers	49

Formula Drill	51
Problems	55
6 percentiles and standard scores	57
Objectives for Mastery	57
Basic Concepts	58
Short Answers	60
A Fairy Tale	62
Formula Drill	62
Problems	65
7 probability: measuring likelihood	69
Objectives for Mastery	69
Basic Concepts	70
Three-Card Spud	72
Step-by-Step Procedures	73
Problems	77
Research Problems	78
8 samples and populations	81
Objectives for Mastery	81
Basic Concepts	82
A Tall Tale	87
9 correlation: measuring relatedness	91
Objectives for Mastery	91
Basic Concepts	92
Thoughtful Question	94
A Fairy Tale	94
Graphing	95
Step-by-Step Calculations	96
Short Answer Questions	97
Calculation Drill	99
Research Problem	100
10 regression: measuring predictability	103
Objectives for Mastery	103
Basic Concepts	104

Short Answer Questions	106
Conceptual Project	107
Formula Drill	107
Problems	109
Research Problem	110
11 experiments: mathematics meets reality	113
Objectives for Mastery	113
Basic Concepts	114
A Terrible Tale (Type II)	116
Step-by-Step Calculations	117
Integrated Problem	120
Another Problem	124
12 the t test	125
Objectives for Mastery	125
Basic Concepts	126
Why the t Distribution is Leptokurtic Rather Than Gaussian	128
A Tale of Freedom and a Bully	129
The Denominator of t	129
Degrees of Freedom, t , and α	129
Short Thoughtful Answers	131
Formula Drill	131
Research Problem	134
13 analysis of variance and the F test	139
Objectives for Mastery	139
Basic Concepts	140
Short Answers	143
Calculation Drill: Sums of Squares, df , and Summary Table	144

Calculation Drill: <i>ms</i> and <i>F</i>	144
A Tale of Totals and Treachery	145
Using the <i>F</i> Table	146
Theoretical and Practical Calculations of Sums of Squares	146
Research Problem	147
14 how to do two experiments at once	151
Objectives for Mastery	151
Basic Concepts	152
Calculation of <i>df</i>	154
Step-by-Step Calculations	155
A Tale of Sizable Interaction	158
Meanwhile, Back at the O'Kay Corral	158
Research Problem	160
15 nonparametric statistics	165
Objectives for Mastery	165
Basic Concepts	166
<i>The χ^2 Test</i>	166
<i>The Sign Test</i>	167
<i>The Binomial Test</i>	167
<i>The Mann-Whitney U Test</i>	167
<i>The Kruskal-Wallis One-Way Analysis of Variance</i>	168
The Tale End	168
Practice Calculations	169
The Binomial Test and Pocket Calculators	171
Research Problem	171
Another Research Problem	174
Answers to Selected Problems	177
Statistical Tables	205
